

Release 2.16.8

If you have custom forms defined in IQX, not all new features may be available to you. Your agency custom forms are shown on Help – About.

- [User](#)
- [System Administrator](#)
- [Fixes and Enhancements](#)

Users

CV sending - Function can block

Pre-validation functions can now be set to block sending out of Candidate CVs as per agency requirements.

The function is called when adding CV to contact event and CV sending from Vacancy - Shortlist.

This requires System Administrator set up.

Timesheet Entry, Shifts - Cancel Button added

A **Cancel Shift** button has been added to timesheets.

Our Ref	Date	From	To	Break (Mins)	Hours	Pay	Bill	Grade	AWR?	Ltd?	Their Ref	Note	Shift Type	Cle
15311	Mon 04/07/2016	07:00	18:00	0	11.00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	N	Y				Test	
15312	Tue 05/07/2016	07:00	18:00	0	11.00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	N	Y				Test	
15313	Wed 06/07/2016	07:00	18:00	0	11.00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	N	Y				Test	
15314	Thu 07/07/2016	07:00	18:00	0	11.00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	N	Y				Test	
15315	Fri 08/07/2016	07:00	18:00	0	11.00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	N	Y				Test	

This allows users to cancel shifts at the point of processing timesheets.

Note: The **Delete Shift** button deletes shifts that have been added by the **Add Shifts** button at this stage.

Non Accounts users can change initial HMRC engagement detail

A User can change a candidate's initial HMRC engagement detail without Accounts Clerk user rights.

Note: This only allows non Accounts Clerk users to set HMRC engagement details if the field is blank or set to None.

This requires System Administrator set up.

Invoice PDF Security - No password option

Invoices created against a Company in IQX can now be set to **No Password** which removes security protection to pdfs generated for that Company.

Statement E-mail	
PO Number Required on Timesheets	<input type="checkbox"/>
PO Number Required on Invoices	<input type="checkbox"/>
Invoice Distribution	Post

Adding Progress where Interview box is ticked to bring up Unavailability list

When a Temp candidate has an interview set in Progress it is easier to record their unavailability.

To use this feature, select a Progress record and set the Candidate State to Interview, (System Administrator set up required). Set an interview date and time. Save and Close.

Will not refresh underlying form.

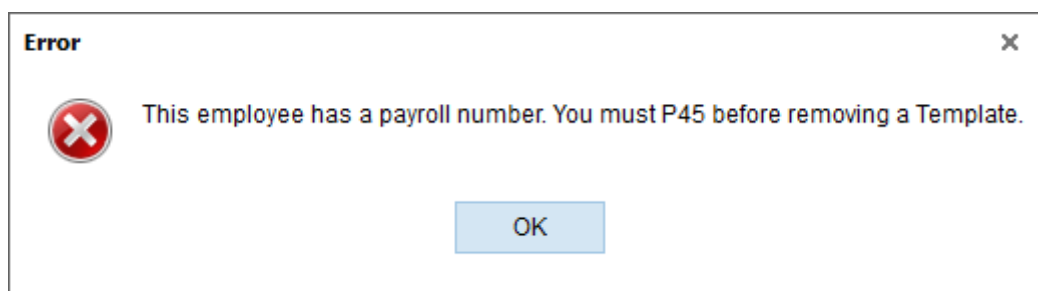

The candidate's unavailability date and time can be recorded. Their unavailability can be viewed in Person- Diary and Person - Availability.

Person, Payroll - Block composite change when need P45

Changes to Composite Company Templates are blocked when a Candidate has a tax method set to PAYE and has a payroll number until they have their current employment ended.

An error message that will appear if a P45 is required before assigning or removing a Template.

Person, Details - Read only Created Date added

A new field has been added to the Person record which will record the date the file was created.

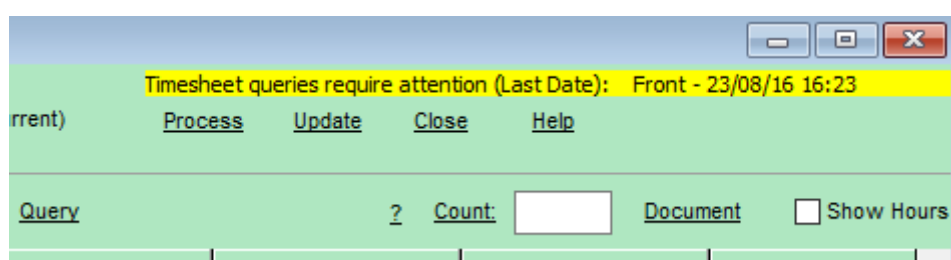

Source	Visit
Consultant	IVAN
<input type="checkbox"/> Registered	No. 10814 Date 04/07/2016
Number	10814
Date	04/07/2016
Created	06/07/2016
Last Updated	18/07/2016 11:39

This field cannot be edited.

Timesheet Query warning on Temp Desk added count

When a timesheet is queried and sent from the Back Office to the Front Office a warning that Timesheets require review appears on the Temp Desk view highlighted in yellow.

This information has now been modified to show a time stamp of the most recent query added.

Shift Questionnaires

It is now possible to add shift questions in the temps desk shift view.

To use, go to Temp desk - Shifts - Questionnaire.

This requires System Administrator setup.

Details	Quick Fill	Short List	Cascade History	Audit Trail	Questionnaire
<input type="checkbox"/> Construction - D - Health and Safety					
— Construction - D - Special Safety R Yes					
— Construction - D - Describe require Cherry picker certification required					
— Construction - D - Review shift arr 30/11/2016					
— Construction - D - Health and Safe CSCS					
<input checked="" type="checkbox"/> Construction - D - H&S equipment Hardhat, Safety Boots, Gloves, Hi Viz					
— Construction - D - Safety mask cat FFP3					
<input type="checkbox"/> G - Travel Plan Survey					
— G - Location confirmed? Y					
— G - Specific location? 101 Main street, Westerhope					
<input checked="" type="checkbox"/> G - Method/s of transport? Bus, Walk					
— G - Update travel survey 30/11/2016					
— G - Time taken to get to site Less than 30 mins					

Note: Department questions are displayed above general questions. If no questions are setup the questionnaire tab in Temp desk - Shifts will not be displayed.

System Administrator

CV sending - Function can block

Pre-validation functions can now be set to block sending out of Candidate CVs as per agency requirements.

The function is called when adding CV to contact event and CV sending from Vacancy - Shortlist.

The function is accessed in Maintenance - Database Functions – Pre-validation Functions.

Blobstore, file size stored

New functionality has been added to the Blobstore table in the database. A numeric field has been added to Blobstore to record the file size. This field is updated when blobs are created or updated.

The screenshot shows the Sybase Central application window. The title bar reads 'Sybase Central'. The menu bar includes 'File', 'Edit', 'View', 'Tools', 'Connections', 'Mode', and 'Help'. The toolbar contains various icons for file operations, database connections, and editing. The 'Context' dropdown shows 'Sybase Central/SQL Anywhere 16/2168s/2168s - pears/Tables/blobstore (pears)'. The 'Tools' dropdown is open, showing icons for SQL, debugging, and other utilities. The main window displays a table titled 'blobstore (pears)'. The table has columns: 'Columns', 'Constraints', 'Referencing Constraints', 'Indexes', 'Text Indexes', 'Triggers', and 'Privileges'. The data is as follows:

Columns	Constraints	Referencing Constraints	Indexes	Text Indexes	Triggers	Privileges
AddToInvPDF	0	CVSendOutApproved	ExternalFilePath	Optimised	filesize	
1	0	0	(NULL)	(NULL)	6,951	
2	0	0	(NULL)	(NULL)	3,083	
3	0	0	(NULL)	(NULL)	2,286	

A job would be needed to get figures for existing blobs.

Non Accounts users can change initial HMRC engagement detail

A User can change a candidate's initial HMRC engagement detail without Accounts Clerk user rights.

Note: This only allows non Accounts Clerk users to set HMRC engagement details if the field is blank or set to None.

This is permitted via Maintenance - General Settings - Temps - 1020 - Y.

Invoice PDF Security - No password option

Invoices created against a Company in IQX can now be set to **No Password** which removes security protection to pdfs generated for that Company.

The screenshot shows the 'PDF Security' settings form. The form is divided into two sections. The top section contains various settings with checkboxes:

- Statement E-mail
- PO Number Required on Timesheets ☐
- PO Number Required on Invoices ☐
- Invoice Distribution ☐ Post
- Web Contract Start Date
- Document Pack
- Override Invoice Layout
- Invoice PDF Create ☐
- Invoice PDF add Timesheets ☐

The bottom section is titled 'PDF Security' and contains a dropdown menu with the following options:

- Fixed NI percent
- WTR percent
- AWR NI percent
- AWR WTR percent

The dropdown menu is currently set to 'Standard'. The 'No Password' option is highlighted in yellow.

This can be set in Company - Accounts - PDF Security.

Person Search a new full width line for CV Boolean Search

In Person – Search a full width search line can be added which will allow users to search for candidates.

This feature can be set up in Maintenance – General Settings – Settings 2020.

The text index can be set up by running the following in Maintenance – SQL Tool.

```
CREATE TEXT INDEX "cvindex" ON "pears"."Person" ( "cvtext" ) IN "system"
CONFIGURATION "SYS"."default_char";
```

Note: this feature requires Sybase SQLA 11+.

Unavailable reason on temp desk temps view

A new switch has been added to allow additional information on candidate unavailability and availability to be shown in Temps Desk – Temps.

Search	Expand	Holiday Pay	Current Pool	Available	Unavailable	On Holiday	?		Timesheet	
Temp Desk Pool(s)		Temp	Monday 05/09/2016	Tuesday 06/09/2016	Wednesday 07/09/2016	Thursday 08/09/2016	Friday 09/09/2016	Saturday 10/09/2016	Sunday 11/09/2016	Alert

1060 Temps	Display Unavailability Reason	N

Visit Maintenance - Temp Setup - Temp Desk - Select a temp desk - Able to Copy Shifts to permit copying of Shifts.

New function GetTempRateByDesc

A new function GetTempRateByDesc has been added for use in jobs.

<SendEmail> smtpsettings attributes

New smtpsettings attributes have been defined in jobrunner in <SendEmail>.
Refer [here](#) for further information.

Add Database File Format to Help - About

Help - About information has been extended to display the database build version used to create the database. Note this may be the same as the DB engine Version displayed in Help - About but that is not necessarily so.

Adding Progress where Interview box is ticked to bring up Unavailability list

When a Temp candidate has an interview set in Progress it is easier to record their unavailability.

This feature is set up by ticking the relevant boxes in Maintenance - Temps Setup - Progress States.
