

Boilerplate menu list size switch

A switch has been inserted to table the boiler plate menu column so they do not stretch beyond the screen.

This function can be enabled via Maintenance - General Settings - Group - Settings - No 1850 and inserting the number of Boilerplate items required before an additional column is started. Note if the value inserted is below or equal to 20 this function will keep the list as a single column.

No	Group	Name	Value	Notes
1830 Settings		Message blocking old IQX connecting		
1850 Settings		Boiler Plate Menu Break	15	If value > 20 then split menu into sections. The length of each section will be the value.
1860 Settings		Scan Timesheet Division Link	N	IF Y (YES) Default the division to 'All' on scan timesheet link
1870 Settings		Resolution for Compliance Documen...	72	Allows fine tuning of readability/size
1880 Settings		Compression for Compliance Docum...	75	Allows fine tuning of readability/size
