

# pears.DataManagementLog

Generated schema reference. Regenerate this page from the SQL unload; keep hand-maintained business notes in the narrative namespace.

## Description

GDPR - Records which records have been anonymised for GDPR - and what actions happened. Data cannot be recovered from here.

## Columns

| Column         | Type         | Null     | Default           | Comment                           |
|----------------|--------------|----------|-------------------|-----------------------------------|
| <b>DMLogID</b> | char(20)     | NOT NULL |                   |                                   |
| PersonID       | char(20)     | NULL     |                   |                                   |
| Name           | char(30)     | NULL     |                   |                                   |
| Appnumber      | char(12)     | NULL     |                   |                                   |
| WhenEntered    | timestamp    | NULL     | current timestamp |                                   |
| WhoEntered     | char(20)     | NULL     |                   |                                   |
| Action         | char(20)     | NULL     |                   | View, Email, Print, Delete, Other |
| OtherDetail    | long varchar | NULL     |                   |                                   |
| Outcome        | long varchar | NULL     |                   | Success or Fail                   |
| OutcomeDetail  | long varchar | NULL     |                   |                                   |

## Primary Key

- DMLogID

## Foreign Keys

- No outgoing foreign keys found.

## Referenced By

- No incoming foreign keys found.

## Indexes

- No indexes found.

## Triggers

- No triggers found.
