

# pears.DocumentTag

Generated schema reference. Regenerate this page from the SQL unload; keep hand-maintained business notes in the narrative namespace.

## Description

Questions (ie TagIDs) associated with a Document Type for Compliance Documents

## Columns

| Column               | Type     | Null     | Default | Comment |
|----------------------|----------|----------|---------|---------|
| <b>DocumentTagID</b> | char(20) | NOT NULL |         |         |
| DocumentTypeID       | char(20) | NULL     |         |         |
| TagID                | char(3)  | NULL     |         |         |
| TagLocation          | char(3)  | NULL     |         |         |
| Required             | smallint | NULL     |         |         |
| DeleteOnArchive      | smallint | NULL     |         |         |

## Primary Key

- DocumentTagID

## Foreign Keys

| Constraint   | Columns            | References                                          | Delete/update action        |
|--------------|--------------------|-----------------------------------------------------|-----------------------------|
| DocumentType | DocumentTypeID     | <a href="#">pears.DocumentType (DocumentTypeID)</a> | ON DELETE CASCADE           |
| TagKey       | TagLocation, TagID | <a href="#">pears.tag (taglocation, tagid)</a>      | NOT NULL; ON DELETE CASCADE |

## Referenced By

- No incoming foreign keys found.

## Indexes

- No indexes found.

## Triggers

- No triggers found.
