

# pears.VacancyEtip

Generated schema reference. Regenerate this page from the SQL unload; keep hand-maintained business notes in the narrative namespace.

## Description

[Link to ETip Vacancies / shifts](#)

## Columns

| Column              | Type     | Null     | Default | Comment |
|---------------------|----------|----------|---------|---------|
| EtipID              | char(20) | NOT NULL |         |         |
| vacancyID           | char(20) | NULL     |         |         |
| JobCode             | char(30) | NULL     |         |         |
| LocationCode        | char(30) | NULL     |         |         |
| TempShiftTemplateID | char(20) | NULL     |         |         |

## Primary Key

- EtipID

## Foreign Keys

| Constraint        | Columns             | References                                                    | Delete/update action |
|-------------------|---------------------|---------------------------------------------------------------|----------------------|
| vacancy           | vacancyID           | <a href="#">pears.vacancy (vacancyid)</a>                     | ON DELETE CASCADE    |
| TempShiftTemplate | TempShiftTemplateID | <a href="#">pears.TempShiftTemplate (TempShiftTemplateID)</a> | ON DELETE SET NULL   |

## Referenced By

- No incoming foreign keys found.

## Indexes

| Name         | Type         | Columns               | Detail |
|--------------|--------------|-----------------------|--------|
| Vacancy_Etip | Unique index | JobCode, LocationCode |        |

## Triggers

- No triggers found.
