

Spell Check does not seem to be working on Contact Events

Open a Contact Event and click on **SPELL CHECK** then **OPTIONS**.

The screenshot shows the iqx software interface. The main window is titled 'Contact Event 3I Group PLC, Sophie Ryman'. It has a menu bar with 'Reports', 'Delete', 'Help', and 'New Vacancy'. Below the menu bar is a toolbar with icons for navigation and document management. The main area is divided into two panes. The left pane has a sidebar with 'Text', 'Attached CVs', and 'Letter Text'. The right pane shows details for '3I Group PLC, Sophie Ryman', including 'Made By: BARBARA', 'Date: 04/11/2014', 'Time: 10:07', 'Type: Client Update', 'Summary: Spelling', 'Outcome:', 'Callback:', 'Callback Time:', 'Priority: 5', and 'Created By:'. Below the panes is a toolbar with 'Insert Text', 'Spell Check', 'Duplicate', 'Send Fax', 'Send Text', and 'Write Letter'. The 'Spell Check' button is highlighted with a red box. Below the toolbar is a text area with the text 'Dear Sophie' and 'Please find attached a'. The 'Spelling' dialog box is open, showing 'Not Found: Please find attached a' and a list of suggestions: 'attached', 'attacked', 'attaches', 'attracted', 'attach', 'attaché', and 'attachés'. The 'Options...' button at the bottom of the dialog box is highlighted with a red box.

Check the tab for Language and also the Custom Dictionary tab to ensure they are set to English UK and the user custom dictionary.

The Options box view may have a slightly different view depending on the version of word you use.
