

# Client Files Installed with IQX

This list of files commonly found in IQX client installations may be helpful. Not all these files will be found in every installation - this will depend on your configuration. In particular many of the dlls are only required for specific image manipulation processes - usually connected with the processing of timesheet images.

| Files normally placed in the client IQX share |                                              |
|-----------------------------------------------|----------------------------------------------|
| iqx.exe                                       | main IQX program file                        |
| iqx.ini                                       | IQX configuration settings                   |
| bankscan.dll                                  | bank modulus checking library                |
| british.adm                                   | spell check dictionary                       |
| libeay32.dll                                  | Open SSL library for https etc               |
| ssleay32.dll                                  | Open SSL library for https etc               |
| tiff_to_pdf.dll                               | image conversion library                     |
| wPDFViewPlus02.dll                            | PDF viewing and manipulation library         |
| wPDFViewPlus03.dll                            | PDF viewing and manipulation library         |
| wp_type1tff.dll                               | supprt library for wPDFViewPlus              |
| pdftk.exe                                     | PDF manipulation utility                     |
| pears.key                                     | security support file                        |
| DTKBarReader                                  | bar code reading library - EXTRA COST OPTION |
| zlib1.dll                                     | file compression library                     |

| Files in IQX Job Runner and IQXNet installations                  |                                      |
|-------------------------------------------------------------------|--------------------------------------|
| RunJob.exe                                                        | Job Runner program file              |
| RunJobService.exe                                                 | Job Runner - windows service version |
| IQXNet.exe                                                        | IQXNet program file                  |
| IQXNetService.exe                                                 | IQXNet - windows service version     |
| Obsolete files relating to previous help systems - can be removed |                                      |
| iqx.hlp                                                           | Help file - OBSELETE                 |
| iqx.chm                                                           | Help file - OBSELETE                 |
| pears.cnt                                                         | Help file - OBSELETE                 |
| pears.gid                                                         | Help file - OBSELETE                 |
| pears.hlp                                                         | Help file - OBSELETE                 |
| iqx.gid                                                           | Help file - OBSELETE                 |
