Client Files Installed with IQX

This list of files commonly found in IQX client installations may be helpful. Not all these files will be found in every installation - this will depend on your configuration. In particular many of the dlls are only required for specific image manipulation processes - usually connected with the processing of timesheet images.

Files normally placed in the client IQX share	
iqx.exe	main IQX program file
iqx.ini	IQX configuration settings
bankscan.dll	bank modulus checking library
british.adm	spell check dictionary
libeay32.dll	Open SSL library for https etc
ssleay32.dll	Open SSL library for https etc
tiff_to_pdf.dll	image conversion library
wPDFViewPlus02.dll	PDF viewing and manipulation library
wPDFViewPlus03.dll	PDF viewing and manipulation library
wp_type1tff.dll	supprt library for wPDFViewPlus
pdftk.exe	PDF manipulation utility
pears.key	security support file
DTKBarReader	bar code reading library - EXTRA COST OPTION
zlib1.dll	file compression library

Files with the extension **rtm** are IQX Report Templates. Files with extension **xml** in the IQX folder structure are likely to be IQX Job Runner scripts - if in doubt check the contents - IQX jobs will have a top level tag of <job>.

Files in IQX Job Runner and IQXNet installations	
RunJob.exe	Job Runner program file
RunJobService.exe	Job Runner - windows service version
IQXNet.exe	IQXNet program file
IQXNetService.exe	IQXNet - windows service version

Obsolete files relating to previous help systems - can be removed	
iqx.hlp	Help file
iqx.chm	Help file
pears.cnt	Help file
pears.gid	Help file
pears.hlp	Help file
iqx.gid	Help file
