iqxWEB Version 1.4.9 Release Notes

Requirements

Minimum **IQX.exe** Version: 2.19.2.x

Minimum **IQX WPK** Version: 2.19.2.8

Minimum **IQXHub** Version 5.3.2.1

Features

- Candidate Portal - Add page text functionality to /provtimesheet page
- Change password button added to the settings page
- In the Candidate Portal the switch to allow “send for approval” button will also now complete the timesheet
- The Password reset job will now have a hyperlink so the candidate can enter in their own password

Enhancements

- Current timesheets in the Candidate portal should show all timesheets (no date range)
- iqxweb Question Groups will apply to all questionnaires visible
- Review PDF conversion.
- When the Candidate Uploads timesheet image in PNG it will now convert into PDF
- [IW-814] - uploadVacanciesMongo - should it insist on Expiry date?
- Optional gender field (for payroll) on candidate registration wizard
- Candidate Payslips are now ordered to show the most recent at the top.
- Pin inputs will now show the correct keyboard on a mobile device. Autocomplete has been disabled on the pin entry forms

Bug Fixes

- Fixed an issue where the description fields would not follow the formatting in iqx.exe
- Fixed bug on change password page where an internal error would appear if current password is entered incorrectly.
- Fixed an issue when updating bank details, it wasn't clear that the bank account number was being removed for re-entry. When a candidate

updates their bank details, they will need to enter both the Sort Code and Bank Account number.

- Fixed bug whereby the progress history tab was always showing in action dialogue (when it should only show for candidates)
- Fixed the email summary and email reminder for web referencing.
- Fixed an issue where, if a provisional timesheet has 0 shifts, the candidate and/or client were able to click calculate, which caused an

internal error.

- Fixed an issue where iqxWEB would allow an invalid second session to stay active on the site.
