Release notes - iqxWEB - 1.5.18

New Feature

IW-1489 - Allow multiple "WEBFETCHTERMS" on xregister.

Added the ability to have multiple web fetch terms on the registration wizard.

https://iqxusers.co.uk/iqxhelp/doku.php?id=iqxweb:technical:customize:registrationwizard

Task

IW-1398 - Create Cand Portal payslips from Staffology JSON, that can be downloaded

Candidates can now see payslips if you use the Staffology integration

IW-1487 - Fixed string length text questions

You can now specify a text question's minimum and maximum character count. For example, if the question's character count is set to 9, the user cannot respond with fewer than or more than 9 characters.

IW-1488 - Yoti Discovery

Added Yoti Integration

IW-1491 - Required documents

Added ability to set documents on the registration as required so Candidates can not proceed any further without adding the specific documents

IW-1492 - Show/hide question items

It is now possible to design questions to depend on one another such that they only display when the previous question gets the desired response (for example; if yes answer questions)

IW-1493 - Adding bank details into the xregister

You can now add your bank details on xregister

IW-1501 - NetUploadTypes - Procedure character limit

Story

IW-1494 - CLONE - Contact event / Audit trail - When Candidate puts in their email address in Client email field

Bug

IW-1500 - Add Multiple Dates wont allow for consecutive nightshifts

In the Candidate Portal's diary view, you can now add several periods of availability to a single day, making it possible to add availability for nightshifts on consecutive days.

IW-1502 - Client Portal - Current requirements filter broken

IW-1504 - Add SHOWSHIFTS Web Switch
