iqxWEB v1.5.2 Release Notes

Requirements

Minimum **IQX.exe** Version: 2.20.4.x

Minimum **IQX WPK** Version: 2.20.2.4

Minimum **IQXHub** Version 5.3.4.1

Features

- Candidate can now search and put themselves forward for shifts.
- Added address auto complete so now when you start to type an address it will give suggestions. This feature requires a subscription to Ideal Postcodes.
- When Availability has been added by a Candidate a Contact Event to be made if General Setting Temp 440 set - Contact events will be created when a candidate adds/removes availability from the candidate portal diary. See general settings > temp setting 440.

Enhancements

- New and improved images have been added to replace the coloured shapes in the Diary. Also amended the look and feel of the candidate diary.
- Within the client portal it is now possible to hide cancelled requirements. Client requirements will no longer show cancelled shifts/vacancies by default, a switch has been added to show these again.
- Now possible for non-Web WPK General settings to be collected by iqxWEB. This will allow non web general settings to be sent via the Send to iqxWEB function.
- Improvements made to the soft registration wizard to allow custom questionnaire groups depending on previous answers.
- Updated NI mask so the letters are uppercase
- Custom question group added for soft registration wizard
- Tidy up of placeholders for the address lookup
- Meaningful starting point for Date of Birth date-picker
