Release 2026.05.28

- Features
- Enhancements
- Fixes

FEATURES

SMS Consultant Interface

Using an existing intergration with SMSWorks we have been able to create an interface on the Consultant Portal to view SMS Trails sent through IQX.

Web Activity Log

More tracking options to see what is going on in iqxWEB with its own Audit Trail

Themed Assets

You can now have a seperate logo when in dark mode to light mode to make cetain company logos easier to see

ENHANCEMENTS

Registration Details Improvements

A highly requested feature has finally came into iqxWEB V2 where questions can be added onto the details page to allow candidates to answer questions at the same time as inputting their personal details

To-do list view on document upload

A new view has been added to the document uploader on the Candidate registration - you can now specify the Documents you want Candidates to upload so they have an easy table to follow rather than a drop down

Fixes

Registration Document signing image rendering

Document Signing Page image rendering fixed so it looks better when viewing the document you are signng

Display Issue on Candidate Diary

We have fixed the issue where the Candidate diary was out by one hour on certain views
