

# Release 2.16.6

**Note:** If you have custom forms defined in IQX, not all new features may be available to you. Your agency custom forms are shown on Help – About.

## New Features

### Users

#### Improvement to Favourites

Additional features have been added to the Favourites view.

#### Viewing and Amending Favourite items by other Users.

Favourites can be viewed and amended by users with the same Division access.

#### Records in Favourites can be Processed.

Records stored in Favourites can be selected using Ctrl and/or Shift keys and processed to the relevant selector screen using the Process button.

## Stored Selections can be saved in Favourites

Select or create a stored selection in the Person, Company, Contacts and Vacancy. Drag and drop the Stored Selection in the relevant Favourites Folder.

## Creating contact events from Favourites

The F2 key can be used to create contact events for records in folders in Favourites, as well as using

the existing button.

## Improvement to +/- click boxes

The +/- expansion/contraction buttons have been improved to ensure only one click is required. In addition this has also improved the same function in the search criteria boxes.

## Shift Confirmation - BPT when not using branding.

Following on from Release 2.16.4, Shift Confirmation fields have been created to allow the User to more precisely describe the information they would like to include in their Shift Confirmation emails and SMS.

System Administrator support will be required to set up automated BPT templates.

To use this feature in TempDesk - Vacancy, TempDesk - Temps, Vacancy - Diary and Vacancy - Shifts select **Confirm Shifts**.

The screenshot shows the 'Temp Desk' application interface. At the top, there are filters for 'Desk' (Derby Industrial Shifts), 'View' (Weekly Shift), 'Year' (2016), and 'Week' (7). Below these are buttons for 'Go to Current', 'Make Current', 'Process', 'Update', 'Close', and 'Help'. A navigation bar includes 'Vacancies', 'Search', 'Expand', 'Add', 'Show:' (with radio buttons for 'Shifts in Week', 'Current State', and 'Unfilled in Week'), 'Add Shifts', 'Fill Shifts', 'Confirm Shifts' (highlighted in yellow), 'Copy Shifts', and 'Enter Timesheet'. A table below lists shifts with columns for Job Title, Vac. Site, Company, and days of the week from Monday to Sunday. The first row shows 'Brewer' at 'ABBA Ltd' with 'Unfilled' status for all days.

In the next window click the Msg tick box for the shifts you wish to confirm. Click **SMS/Email**.

The screenshot shows the 'Shift Confirmations for brewer, ABBA Ltd' window. It includes fields for 'Week Beginning' (23/05/2016) and 'Week(s)' (1). There are navigation buttons (back, forward, etc.) and buttons for 'Applicant', 'Save and Close', 'Include Confirmed', 'Select All', 'Abandon', and 'SMS / Email' (highlighted in yellow). A table below lists shift details with columns: Our Ref., Date, From, To, Description, Person, Cancelled, Cancel Reason, Client Confirmed, Confirmed With, Temp Confirmed, Their Ref., Grade, Note, and Send Msg. The first row shows '9781' for 'Tue 24/05/2016' from '08:00' to '09:00' for 'Bolton, James', with 'Client Confirmed' and 'Confirmed With' checked, and 'Send Msg.' highlighted in yellow.

At the SMS/Email window select either email or SMS.

Once a note has been added it can be amended in:

1. Temp Desk - Vacancies - Confirm Shifts
2. Temp Desk - Temps - Confirm Shifts
3. Temp Desk Vacancy Shifts - Confirm Shifts
4. Temp Desk - Shifts - Shifts (bottom of window)
5. Vacancy - Diary - right click on a shift - Edit.

## Timesheet Entry. Defunct paybands and rate schemes cannot be added.

Defunct rate schemes and defunct paybands cannot be applied to new timesheets.

Existing timesheets which have had these now defunct paybands and rates applied can be completed using these rates. However, if a new rate/payband is applied to the timesheet, and the provisional timesheet saved, it will not be possible to reapply to defunct rate/payband.

## Document Templates. Users can build own "favourites" list. Also search added.

Users can build own Document Templates "favourites" list and search this list.

This feature is accessed from a Contact event window. For example - Person Record - Contact Event icon.

When using document templates;

Clicking **Add to favourite list** will promote the template to nearer the top of the list the next time the list is accessed.

**Remove from favourites list** will return the template to its original order.

The search facility is a straightforward search of sequential characters inserted into the search window.

## Allow Managers to save a Stored Search in another User's name

Users with Manager rights can now save a Stored Search in another User's name.

Create or select a Stored Search. Click **Save**. Select the User to receive the Stored Search. Click OK.

### Extra information in About window.

Extra information has been included in the Help - About box.

Additional information is available on:-

1. Database Engine Version
2. ODBC Version
3. Operating System
4. Location of the IQX executable file
5. Method of Text Indexing.

This information will be useful to both System Administrators and IQX Support.

## Switchable person details availability fields.

In a Person record a candidate's availability can be recorded in terms of days notice in addition to the current Available From option.

Open a Person record and click the + next to Available. Fill in the availability Type and Days Notice. When the Available view is closed down the Days notice will remain visible.

## Compliance Detail View added.

A Compliance Detail View has been added to a Person Record for Users with Compliance rights but without Perm or Temp Consultant rights. It provides an at a glance view of Compliance issues. No data can be amended from this view.

To view this feature go to Person - Open a Person record - Side bar tab Compliance - Compliance Detail View.

## Merging Person Records with IQXNet logins

Merging records where one or more record has an IQXNet login associated with it has been clarified.

The process of merging records is the same. Open up the Target record and drag the source record to the upper left window of the target record.

If the Target person record has an IQXNet login and the Source record has **either** an IQXNet login or no login, the merged record will retain the Target record IQXNet login.

If the Target record does **not** have an IQXNet login and the Source record does, the merged record will retain the Source record IQXNet login.

## System Administrator

### Allow Managers to save a Stored Search in another User's name

Users with Manager rights can now save a Stored Search in another User's name.

|         |                          |                                     |

## Role to make Contact Events visible

It is now possible to set a User so that **ALL** of their contact events are available to all regardless of division access restrictions.

This feature can be set up in Maintenance - Users - Roles - Contact Events available to all - tick.

| Role Group  | All                                          | events                | Search                              |         |
|-------------|----------------------------------------------|-----------------------|-------------------------------------|---------|
| Group       | Role                                         | Search Criteria Group | Assigned                            | Expires |
| GENERAL     | Can see Consultants Not in Use               |                       | <input checked="" type="checkbox"/> |         |
| GENERAL     | Restrict access to other users data          |                       | <input type="checkbox"/>            |         |
| GENERAL     | Contact Events are available to all          |                       | <input checked="" type="checkbox"/> |         |
| ▶ SUPERUSER | Can make Contact Events available to all ... |                       | <input checked="" type="checkbox"/> |         |

**WARNING:** If this feature is activated then Contact Events, for that User, will have their Division IDs removed and all Contact Events once set this way cannot be reset to the original division. This setting effectively overrides the 'Can make Contact Event available to all users'.

## Audit Features

A number of new Audit features have been added and are summarised below.

## Contact Events

### Auditing of Disallow Contact Event Editing and Days

Contact Event auditing has been extended to automatically audit changes to Disallow Editing and After Number of Days in Maintenance - Agency Setup - Miscellaneous Settings.

|                                                          |                          |

|                   | TEMP        | Can over-ride Temp Pay Rates |                 |        | <input checked="" type="checkbox"/> |         |                                                                             |

If neither of Can add Rates on Timesheet nor Rate Scheme Maintenance is ticked the **Add Rates** when completing a timesheet will be visible but is greyed out.

## Switchable person details availability fields.

In a Person record a candidate's availability can be recorded in terms of days notice in addition to the current Available From option.

Open a Person record and click the + next to Available. Fill in the availability Type and Days Notice. When the Available view is closed down the Days notice will remain visible.

## Document Templates. Users can build own “favourites” list. Also search added.

Users can build own Document Templates “favourites” list and search this list.

This feature is accessed from a Contact event window. For example - Person Record - Contact Event icon.

When using document templates;

To use this feature that there is no sort order applied to Document Templates in Agency Setup as sort order overrides the favourites list.
