New Column on Expiry Dates View - Shifts After Expiry

A new column has been added to the expiry dates view called 'Shifts after Expiry'. This column shows the number of shifts booked after the first expiry date. This has been designed to assist with booking future shifts before a candidate has been re-cleared on the expectation that the clearance will happen in time.

Company - IQXWeb - way to Link Head Office to Group Companies

Where there are multiple companies in a group using the same account code and a head office contact needs to see data from all companies a way of adding links to all in one action now exists in the iqxWEB record on the company contact record.

Clicking 'Add Multiple Links' will allow the user to enter an account code and link all companies to the iqxWEB record. This will save time with companies that have a significant number of subsidiaries. An employment record will be added to each company record with a Note of 'Web User Link'. Use the Delete Link button to remove a company; the employment record will also be deleted unless contact events exist.

Company - Contact Department

This field has been changed to enable the user to select from a drop down as well as entering free text thereby saving time and ensuring uniformity of spelling. This is similar to vacancy position.

Note if Person - Photo has been hidden in Modify Screen the thumbnail will not display.

Division filtering on Notifications

In Agency Setup - Notifications it is now possible to assign divisions to Notifications. Leaving the Divisions field blank means the Notification is available for all divisions.

Selecting a Division means the template will be available to a user if they are in All or the associated division.

2-17-10-b.png Note:- Each division needs to have a separate notification template allocated to it if the same template is to be used for more than one division. Alternatively leaving the division field blank allocates that notification to all divisions.

In Agency Setup - Departments new Company Contact departmental questionnaire has been added.
