- [Fixes](#)

FEATURES

IR35 Legislation changes

In April 2020 , in addition all public authorities and medium and large sized clients will be responsible for deciding the employment status of workers they place with your agency. There are extra responsibilities that will affect you. For every placement of a Limited Company or Self Employed Temp Candidate the CLIENT will have to send a Status Determination Statement (SDS) to the Candidate, determining whether a contract is inside or outside of IR35 rules, copying this to the Agency, who are now responsible for deducting employment taxes if Inside IR35 rules. This will mean changing the Tax Method of the Candidate to comply.

The SDS is between the Client and the Candidate and is managed from the Person form. There is a new view for Company SDS, above the Placement view. Enter the Client Contact who has determined the status, how the Candidate is to be paid and the Reason for the decision. Copies of the SDS Documents should be kept on the Documents view. We advocate adding a new Document Type to be used.

There are also changes to the Company form. In the Miscellaneous* view that holds Accounts information the field that was 'Private Sector Outside IR35' has been renamed to 'Small Private Sector Outside IR35'

In April any large Private Sector Clients will have to be ticked - start adding these clients to a Stored Selection so that they can be updated in bulk.

In addition there are tick boxes to set what payment methods the client will accept

- PAYE by the Agency
- Limited
- Limited External PAYE (HMRC letter F)
- Self Employed (if database set to allow)

When creating a placement or booking a shift for a Temp (who is NOT PAYE or External PAYE) there will be a popup SDS form to record the Status. If an SDS has not been received Cancel, and remind the Client that they need to send one within 31 days of the placement start date. Completing a

timesheet will also check for the existence of an SDS. If one does not exist the SDS form will popup. In addition one can be manually added on the Person SDS view.

Validations will need to be added if a placement or a Timesheet is to be BLOCKED because different sectors have different requirements. Contact IQX to arrange.

*This may be renamed to something different in your Agency

Timesheet Improvements

Approve Images

If Agencies use iqxWEB for E-Timesheets and Candidates upload images of their timesheets by phone we have added a mechanism to indicate that these images need to be checked. This has to be switched on in General Maintenance. There will be a new tick box column in Tempdesk, Timesheets view for Image approved.

Number	Batch + PO Ref	Paid to - Ref and Name	Temp Desk	Company	Job Title	Comment	Image Approved
V3242 123456	1	Leicester... Advancing 365 Ltd.			Handyman		☒
V3243	1	Leicester... Cgms Ltd.			Labourer		☒
V3244 9982	1	Leicester... Cgms Ltd.			Labourer		☒
V3212 12345	2	Demo Payroll co...			Ground Worker		☒
V3313 12345	2	Lake Ventures			Ground Worker		☒

It is assumed that any image linked by a consultant is approved so by default is set to ticked. Any document uploaded from iqxWEB will NOT be ticked, so needs to be expanded in Document, and then marked as approved. The actual Approving of an image has to be done on the Document (when you are viewing the image).

Type of work	timesheet number
Data Input Clerk	41584

Validations could be added to block invoicing of Timesheets where the image is not approved.

Filter Timesheets

There is a Filter box on Timesheets, visible if the screen is widened. It will match data in all of the columns.

Number	Batch + PO Ref	Paid to - Ref and Name	Temp Desk	Company	Job Title	Comment	Image Approved
V3242	1	Leicester... Advancing 365 Ltd.			Handyman		☒
V3243	1	Leicester... Cgms Ltd.			Labourer		☒
V3244	1	Leicester... Cgms Ltd.			Labourer		☒
V3212	2	Demo Payroll co...			Ground Worker		☒
V3313	2	Lake Ventures			Ground Worker		☒

Image Status

In addition to the colour of the line indicating information about a linked image there is a column with a written message.

Image Approved	Image File	Image Status
☒		OK
☒		OK
☒	C:\IQX\IQX TS\2019\37\Scott Test Photo.jpg	OK
☒	C:\IQX\IQX TS\2019\Legal Recruitment\37\1853.TIF	OK

Timesheet Image Cropping Tool

We have found that sometimes images have unnecessary content around the edges. There is now the ability to use an image cropper for tif and jpg files prior to linking images to a timesheet, see below.

Once you have cropped the image as required you click on apply crop to apply the changes and then click save and close, this then overwrites the original image.

You can also crop an image that has already been linked. From TempDesk you would go to the Timesheets view and click on the document button to view the image, you can then follow the same cropping steps as you would for an unlinked image. When cropping an image that has already been linked The audit trail of the candidate record will also show who has cropped the image.

Companies House Look Up

Accounts users can quickly check details of a company with Companies House without leaving IQX. Simply enter the company registration number and use the elipses button on the Company Reg No field or the new Companies House button on either the Person Payroll view or Company Miscellaneous view:

The following report will be returned on a contact event logged to show the check was completed:

VAT Number Checker

Accounts users can quickly check details of a VAT number for either a person or a company without leaving IQX. Simply enter the VAT number and use the new VAT Number button on either the Person Payroll view or Company Accounts Miscellaneous view.

Miscellaneous	
Group Timesheets on Invoice	Batch: Only One Invoice for each Account Code, Temp By Period, Number
Invoice Management Group	Batch

Reporting on Shift Prices

Functions have been written to report on the expected true value of shifts in a week in advance of timesheeting.

Run against all shifts for vacancies that have Rate Schemes and Scripts we now have the tools to create a report that will break each shift down into the different slices and paybands, calculate the pay and charge and create a cumulative total for the week.

Please contact IQX support on 01835 340 034 if you are interested in having a report written.

New 2020 Legislation Requirement

New legislation requires information to be sent at the beginning of every assignment. This can be done through Notifications. Contact IQX to discuss the ways in which this can be done.

Drag Person from Favourites

It is now possible to drag candidates from within your Favourites lists onto a vacancy shortlist. Please note if you drag a record within Favourites it copies rather than moving the record to the new location.

ENHANCEMENTS

Mailchimp Unsubscribe Improvements

Unsubscribing candidates and contacts in Mail Chimp now filters back to IQX. When a user presses the subscribe button on the Mailer Selections new records are subscribed to Mail Chimp and records that have unsubscribed in Mail Chimp are filtered back to IQX

Withhold Reasons Added

In order to provide meaningful information to clients or for your Agency you can now distinguish why someone was withheld from a particular company or vacancy by way of withhold reasons.

If set up by your Agency when adding a withhold you will be prompted to select a type and reason from two drop down menus.

If you want to edit a withhold press the Edit button and select the correct Type and Reason.

Note - if you withheld from all companies in the group editing a withhold will only edit an individual company and you will need to edit each company individually.

New Dual List Box screen on Maintenance forms for Divisions/Departments

Added the ability to link to a selection of Divisions or Departments instead of just one. Useful where several Divisions or Departments work in a similar way and you do not want to set up one each individually.

CV Parse Extension

The CV parsing function has been improved and now parses more information across a variety of CV formats than it did in previous versions.

Auditing when re-filling shift

When cancelling and refilling a shift there is now a clearer audit display of what has happened; who actioned and when. This will show when the shift was entered and by who, when the shift was last filled and who filled it and also when the shift was initially filled and who filled it.

Entered by: JUNE BROWN 04/06/2019 15:26 Filled by: JUNE BROWN 03/10/2019 13:53 Initial Fill: JUNE BROWN 23/09/2019 14:34

Additions to Invoice view

When viewing an invoice record if you scroll along to the end in the top section there are new columns that show Invoice Template ID (Doc Template), Transfer Batch to show when exported to Accounts and the internal DocumentID. On the journal lines below it will also show the Transfer Batch and the Analysis Batch if processed for GM reporting.

Invoice 16356														
[Print] [Close] [Copy]														
Ref	Payment Method	Document Date	Doc Date	Expected Date	Document Class	Currency	Exchange Rate	Sent	By	Enter Batch	Print Batch	Template ID	Transfer Batch	Document ID
12/11/2019		12/12/2019			Invoice				Not	0	0	0	0	0
Subtotal: 0.00														
Total: 0.00														
Ref	Quantity	Price Batch	Goods Amount	UNIT	UNIT Code	UNIT Rate	Budget	Analysis Amount	Accounting Date	Ledger	Account	Transfer Batch	Analysis Batch	
12/11/2019	0.00	-150.00	-150.00	-30.00	S	30.00	0.00	0.00	0.00	12/11/2019				
12/11/2019	0.00	0.00	0.00	0.00		0.00	0.00	0.00	0.00	12/11/2019				

Person Duplicate checking refinement

Duplicate person check is now more specific with what records it returns as possible duplicates. Records with matching National Insurance numbers will always be returned. Client records will be excluded.

Broadbean - Add Candidate wizard

When adding a new candidate to IQX who has applied through Broadbean the new person screen is now a wizard for efficiency allowing you to parse the CV, answer candidate questions, add notes and register candidate to a department.

PERSONAL STATEMENT

Innovative, Industrious, Talented, Mechanical Engineer with proven track record in learning new design skills since graduating with a Mechanical Engineering degree in 2015. A communicative, encouraging team player who generates ideas effectively and is able to assist others in the latest procedures. Skilled in 3D CAD modelling and animation, FEA and a large number of technical packages. Quickly surpassed expectations in design as well as in end-to-end project management.

KEY ACHIEVEMENTS

Company: Recognised for initiative and rapid progress. Promoted to New Products Engineer
Company: Learned and developed skills in order to design an automated test system which performs most product qualification procedures at the touch of a button. Used National Instruments LabView and a data acquisition module, and designed both a pneumatic system and sensor selection
Company: Achieved all 'green' (excellent) twice yearly appraisals

EMPLOYMENT HISTORY

01/2015 - Present
New Products Engineer, Company
? Develop skills in performing stress and strain calculations/analysis to industry recognised theories
? End-to-end project management: support the research and development team from conceiving ideas to the final qualification of the product and preparation for the market
? Design pressure vessels, pressure systems, drivetrains, hydraulic systems, sealing systems, chemical injection systems, pressure compensation systems and material selection
? Adherence to steel oil and gas industry engineering and quality codes/standards such as API 6A/TD, ASME VIII and ISO 9001

04/2011 - 01/2015
Design Assistant (P/T), Company
? Worked alongside studies
? Adherence to steel oil and gas industry engineering and quality codes/standards such as API 6A/TD, ASME VIII and ISO 9001

Register Applicant in a new department

Please highlight the department and press Next.
Tick those in which departments the Applicant is already registered.

Improvements to Notification Attachments

When attaching documents to notifications IQX will now look at the document type and the document name. This is helpful as it avoids documents not being picked up due to misspellings in the name. Note it will pick up any documents that match that have not been archived so if you have multiple documents of the same type or with the same name they will all be picked up.

Copy Button on Manual Invoice

New copy button on manual invoices to create a copy of the invoice but with current date.

Bulk Adding to Vacancy Shortlist

On the search wizard in a vacancy the 'Tick All' button has been changed to 'Tick' and when pressed you will see two new options; 'Tick All' the same as before and a new option for 'tick all records down to and including the selected record'. This option will look to which record the black arrow is next to and tick every record down to and including that record. This will save users repeatedly ticking each line individually.

If set up by your Agency you may also have the option to 'tick the top X number of records' on the list. This is useful if you have re-ordered the search results by proximity to the vacancy and want the 15 closest people to be added to the shortlist.

Temp Vacancy: Test for 5 Live

Select Type

All

Tick all down to and including selected record

Tick top 15 records

CV Send Improvements

When a single sent cv is sent from a vacancy short list, on the client form the candidate name shows in the link. Where multiple cv's are sent, this will display the word Multiple and a count of attached cv's in the link.

Contact Type	Date	Time	Contact Summary	Link	Count
New CV's Sent	01/04/2013	17:36	CV(s) Sent	Jillian Brown	1
New CV's Sent	01/04/2013	17:20	CV(s) Sent	Multiple	4
New CV's Sent	01/04/2013	16:57	CV(s) Sent	Jillian Brown	1

New index on person.ni

We previously had a job that would check for duplicate NI Numbers. This has now been added as an index on [person.ni](#) as is a much better way for this to work.
