Release 2.3.1 to 2.3.3

Note: If you have custom forms defined in IQX, not all new features may be available to you.

Version	Feature / Change
2.3.*	Additional column for Vacancy site name, added to Company (vacancy & placement) and Person (placement) views.
2.3.*	Add Vacancy Site Email Address to options when sending Contact Event Emails.
2.3.*	Appointment Reminders, additional ability to remove all users who have been linked at once.
2.3.*	Person record, Timesheets view. ‘Create’ button has been added. Will ask for a period then create provisional timesheets for any shifts or placements in that period, if not already existing.
2.3.*	Company record, Placement view, “WITHDRAWN” has been added in front of the job title, if the perm placement has been Withdrawn.
2.3.*	Placement record. A New company contacts view has been added to allow quicker contact event creation with other contacts of the company.
2.3.*	Vacancy record, Short List view. Interview date and time can now be entered directly on the grid instead of only in the Progress record.
2.3.*	New Temp Desk feature - Allow Explicit Shift to Placement Link - allows individual shifts to be linked explicitly to Special placements, pre-timesheet, so that Special terms and rates can be applied for individual shifts. Useful where one temp might negotiate different rates for different days of work.
