Starting IQX

- Double click on the IQX icon on your desktop.
  The following screen is displayed.

- The User field is defaulted to your Windows login name. Enter your IQX User Name and Password and click OK.
- If you are logging in to IQX for the first time you may not have a password set yet, so leave the Password field blank and set a password on first login.
- An error message will appear if the details are not correct or all the licenses are currently being used. If you have any problems logging in please contact your system administrator.
