Vacancies

The Temp Desk will automatically open on the Consultants default Temp desk. You can select a different Temp desk from the drop down menu in the top left of the window. From this tab there are several things you can do:

- Expand the Vacancy
- Add a new Vacancy
- Search for a Vacancy by the Company/Client name
- Add shifts to existing Vacancy
- Fill shifts for vacancy
- Confirm shifts - this will also send out a notification if you have one set up.
- Copy shifts
- Access the Timesheet for a candidate

You can also filter the Vacancies by those that have Shifts in the week, are in a Current, or have unfilled shifts in the week.

Temps

In this tab you can view all the Temps for your selected desk, and see what vacancies they are booked into. If you right click on the cell a small window will popup showing you more details about

the booking. You can access the Person record and the Vacancy record from here by clicking on the option.

The screenshot shows the 'Temp Desk' application interface. At the top, there's a header bar with 'Temp Desk' and a user icon. Below it, a navigation bar contains 'Desk' (Industrial Drivers), 'View' (Weekly Shift), 'Year' (2022), 'Week' (14), and 'Ends 10/07/2022'. There are buttons for 'Process', 'Update', and 'Filter'. The main content area is divided into a sidebar and a main table. The sidebar has a 'Vacancies' tab selected, with sub-tabs like 'Temps', 'Availability', 'Placements', 'Vacancy', 'Shifts', 'Timesheets', 'Cascades', 'AWR Temps', 'AWR', 'Checking', and 'TS Query Log'. The main table lists candidates with columns for 'Temp', 'Licences', 'Distance', and dates from Monday 04/07/2022 to Friday 08/07/2022. A red arrow points to a dropdown menu for 'Bilal Aguilar' showing options: 'Monday 04/07/2022', 'Courgette Polinator, S J Berwin Llp', and 'Available at time'.

Other actions you can perform from this tab are -

- Enter Availability or Unavailability
- Enter Holidays
- Add shifts
- Book Shifts
- Confirm Shifts
- Access the Timesheet

If enabled by your Agency, you can also set the distance in miles from the postcode (vacancy)

Availability

This view shows you the Candidates Availability, Unavailability and Holidays on your chosen desk. You can view the next month or the previous month. You can also change the candidates status, filter by has availability and NOT working this week. You can also expand the Candidates record from this tab.

The screenshot shows the 'Temp Desk' application interface. At the top, there's a header bar with 'Temp Desk' and navigation buttons like 'Go to Current', 'Make Current', 'Process', and 'Upd'. Below this is a control bar with 'Desk' (Healthcare), 'View' (Weekly Shift), 'Year' (2019), 'Week' (45), and 'Ends 09/02/2020'. A sidebar on the left contains various tabs: Vacancies, Temps, Availability, Placements, Vacancy Shifts, Timesheets, Cascades, AWR Temps, AWR Checking, TS Query Log, Expiry Dates, Compliance, and Reports. The main area displays a grid of candidate names and their availability for the week of February 1st to 26th, 2019. A context menu is open over the grid, showing options like 'Add Day Availability', 'Add Day Holiday', 'Book Shift', 'Confirm Shift', and 'Enter Timesheet'.

By right clicking on any populated cell, a new window will pop up giving you more details. From this window you can also add Availability, Unavailability and Holidays. Book shifts, confirm shifts and access the timesheet.

Placements

refers to:

temp desk form → placements tab

This is where you manage your group of placed candidates. All contacts can be made and recorded from this view.

In order to save entry time a Placement is not required until a first Timesheet is Completed – IQX takes care of it in the background. This means that looking at the Placement list does NOT show who is working in the week.

If a Placement is needed because a Temp is getting different rates to the Vacancy then from the Vacancy it is possible to early-create the Placement **from the shift view** by clicking the **Placement/Rates** button. **Do not** use the normal method of adding a Placement as it will not see the shift links.

2.22.2+ If set up by your system administrator unavailability entered for a contract temp the reason is now visible on the Placements, Timesheets and Availability views.

Shifts

When you click on this tab a new window will open detailing all the shifts for the week on your selected desk. From here you can view each shift in more detail > move the arrow to the shift and all the details will be in the bottom section of the window. You will see several buttons to the left of this section detailing all the tasks you can carry out from this view. This includes, filling shifts, expanding the vacancy, cancelling shifts, expanding the Temp record, cascade, expanding the timesheet, confirm, move shift.

The screenshot shows the 'Shifts' window in the Temp Desk application. The window has a sidebar on the left with various tabs: Vacancies, Tempa, Availability, Placements, Vacancy, Shifts (highlighted), Timesheets, Cascades, AWR Temps, AWR Checking, TS Query Log, Expiry Dates, Compliance, and Reports. The main area displays a table of shifts for the week of 28/11/2022 to 04/12/2022. The table has columns for Temp, Company, Vacancy, Cancel Shift details, Date, From, To, Break, Description, Our Ref, and Their R. The shifts are for Charlie Byrd, Grayson Brown, and Chris Cross, all working for 10 Group PLC. The shifts are categorized by date, time, and break. The bottom section shows details for a selected shift, including state, temp, company, vacancy, and shift details.

AWR Temps & AWR Checking

The Temp Desk has two new views - AWR Temps and AWR Checking. These have to process a LOT of information so can be slow to load.

AWR Temps

This view shows the current roles for the Temps registered with the desk.

The default view is to check the roles that have 11 weeks of qualification. This can be changed to look at less weeks of qualification or to look at the gap since the last timesheet.

After six weeks of gap, the role reverts to Unqualified State with a Qualifying count of 0.

Applicant	AWR Status	Linked	Company	Job Title	Weeks	Gap	Grade	Speciality	Rates
Kevin Drummond	AWR Appli...	☒	AWR Applies	Secretary	4	3		Y	
Stuart Humphries	AWR Appli...	☐	AWR Applies	ASA Test	1	4			
Simon Jones	AWR Appli...	☐	AWR LK2 Applies	Secretary	6	0 L		Y	
Rob McAllister	AWR Appli...	☐	AWR Applies	Secretary	3	0		Y	
Rob McAllister	AWR Appli...	☐	AWR LK1 Applies	pa	3	0			
Rob McAllister	AWR Appli...	☒	AWR LK2 Applies	PA	6	0		Y	

The example is showing candidates with at least one week's qualifying but in practise it should be used to see who is coming up to qualifying to ensure all the details are set up and correct.

The Show Weekly Details button will list the events that count towards qualifying and pausing the gap. Other Agency Work can also be entered from here - **make sure to choose the correct role that it is to be entered for before clicking the button.**

AWR Checking

This view shows the AWR information for Companies, Vacancies and AWR Roles (which can encompass several Placements). You can filter to just one type. The dates refer to the checked date and information can always be updated from this view.

Expiry Dates

The Temp Desk has an Expiry View which shows all Date Criteria/Skills/Questions that have been set up with a number of 'Lead' days to expiry. This should be used to initiate bulk communications with the Temps needing updating. In order to appear in this view a question needs to be a date question and have a lead time entered:

If the date is in the future by more days than the lead number, the date is in **Black**

If the date is in the future by fewer days than the lead number, the date is in **Blue** to show it's nearing expiry.

If the date is in the past, the date is in **Red** to show that it has expired.

To clear this selection click on the **Clear Column Filter** button.

To include non-current Temps such as pre-registered or not active select the radio button for **Entire Pool**.

To search for a Temp by name you can use the Search button. A window will pop up where you can search for the Temp by name.

To make an individual contact event to send an email or write a letter. Click on the line once to select the Temp - then use the **Make Contact Event** button or **F2** to bring up the Contact Event window.

To send emails or print letters in bulk - Mail Merge

Use the **Process** button to take all the visible records to the **Person Selector** or select by holding CTRL and click on the required records to process only the selected records to the selector. From the **Person Selector** use the Mail Merge view to write the email/letter to the Temps.

Compliance

If compliance domains are set up by the Agency a summary of the states for all Temps in the Temp Desk can be seen on the Compliance view.

Name	Status	Score %	Compliance Failures and Warnings. Expand for Details
