

# Adding a New Vacancy

Temp Vacancies can be added from Temp Desk, Company record or from a Contact Event to a Contact.

Perm Vacancies can be added from the Company record or from a Contact Event made to a Company Contact.

## From a Temp Desk

Open the Temp Desk the vacancy is to be managed from. On the default view use the Add button – a quick wizard will open.

The screenshot shows the 'Temp Desk' interface. At the top, there are filters for Desk (Demo - Locums), View (Weekly Contract), Year (2010), Week (10), and End Date (13/06/2010). Below these are buttons for 'Process' and 'Update'. A sidebar on the left lists 'Vacancies', 'Temps', 'Placements', 'Timesheets', and 'Reports'. The main area has a table with columns: Job Title, Vac. Site, Company, Posts, Place, Start Date, End Date, and days of the week. The 'Add' button is circled in red. A 'New Temp Vacancy' form is open, showing fields for Job Title, Source (Existing Client), Keyname, and a 'Find' button. There are also radio buttons for 'By Company' and 'By Contact', and a 'Select' button. Below the form is a table with columns: Contact, Company, Address, Town, and Country.

Enter the job title and change the source if the default is not accurate.

Select the client from the default list showing (will show if you have a stored selection of contacts that is called 'Temp Regulars' (see [Hints, Tips and Shortcuts, Temp Desk Regulars](#)), or enter the keyname of the client or contact and search for them.

## From a Contact Event

A Contact Event made with a Company Contact has a button to the top right of the screen 'New Vacancy'. This will open a new vacancy form

## From a Company Record

Ensure that the contact is selected and add a vacancy from the vacancy view this will open a New Vacancy form.

## New Vacancy Form

Once the new vacancy form is open, enter the relevant information:

- Select the department
- Enter or select the job title
- Select whether it is a temporary or permanent vacancy
- If it is a temp vacancy then select a temp desk to add it to.

If your agency is set up to use the vacancy wizard it will open at this stage and you will be prompted to enter relevant information and click through the screens. The vacancy form will then be created showing the relevant views depending on the type of vacancy (perm/temp/contract/shifts).

If the vacancy wizard is not set up, the vacancy form will open straight away and you should add the relevant information eg:

- Expand the Dates section and check the Start Date and End Date.
- Enter the notes into the top right section.
- Make a Contact Event to record how the vacancy was received. If you originally added the vacancy from a contact event this contact event will be saved against the vacancy already.

## Temp Vacancies

Select the Rate Scheme or enter the rates manually if they are not available in the drop down

selection. Add AWR rates if you have them at this stage and they are not already written in the rate scheme. See [AWR](#) for more details.
