Reports and Jobs

We thought it would be a good idea to have a centralised location where those with the relevant permissions clients could easily access and download any recently written reports and jobs relating to new features.

We have broken this down into multiple sections as can be seen below to make it easier to find the report or job that you are looking for.

Each report or job will have a description detailing where it should be ran from within IQX as well as advising what it does/shows.

If you need any assistance with downloading, adding or running any of the reports or jobs listed below, please contact IQX Support for assistance.

- Candidates
- Clients
- Vacancy
- Placement
- Tempdesk
- Accounts
