Understanding IQX Timesheet Validation

IQX will apply a number of validation checks before a timesheet can be completed.

Some of these are scripted (in the Timesheet Pre-Validation and the Temp Timesheet Complete functions). These will vary from installation to installation and can be inspected in **Maintenance → Database Functions**

Other checks will depend on the setting of Payroll in **Maintenance → Temp Setup → Miscellaneous Settings**. These are shown in the table below:

Check	**Payroll Setting**					
	None	**Other**	**LSM**	**TempAid**	**Sage**	**Cash Friday**
Client Account Code exists	√	√	√	√	√	√
Candidate Payroll Number exists	√	√	√	√	√	√
Candidate Payroll Company set	√	√	√	√	√	√
