Add questionnaires as switchable fields

Questionnaire items are entered as follows:

- Type: Question
- Data Type: String

Each questionnaire type relates to a section of the database as follows

- C - Company
- P - Person
- A - Applicant (for use with departmental questionnaires)

The expression for a standard Company question is:

```
C;xxx;Companyid (where xxx is the question ID)
```

The expression for a standard Person question is:

```
P;xxx;personid (where xxx is the question ID)
```

For a departmental questionnaire:

```
A##;xxx;personid (where xxx is the question ID, and ## is the department ID)
```

Note: Mutliple Selection questions can be used and will display in the cell as comma separated.
