

GDPR

Data Access Request Report and Data Management

To set up access the Data Access Report and Data Management function the user must have the 'Can use GDPR functionality' role set up in Maintenance - User - Roles.

Role Group	Role	Search Criteria Group	Assigned	Expires	Notes
GENERAL	Can use GDPR functionality		☒		

In addition, the user must have 'Can send CV as PDF and CV packs' ticked to enable the Data Access report to be generated correctly.

Group	Role	Assigned	Expires	Notes
WP	Cannot mail merge by text	☐		
WP	Can create and edit CVs	☒		
WP	Can send CV as PDF and CV packs	☒		Requires W

The report GDPR.rtm needs to be saved in the Reports folder. Please contact IQX for a copy of this report.

A report request is logged in Database Diagnostics- Audit trail.

Database Details		Audit Type	Description	When	Login Name	Old Values	New Values	RecordID	Connection ID
Engine	Details	REPORT	C:\IQX\Reports\GDPR.rtm	21/12/2017 14:36	IVAN			6	

The delete and anonymising features in the Data Management tool will make recovery of accidentally anonymised/deleted information difficult and in some cases expensive to recover.

Use of this button and any actions in the subsequent view are audited and logged.

To check logging insert the following into SQLTool:

```
select * from datamanagementlog order by whenentered
```

Contact Events

The Contact Event type must be created in Agency Setup - Contact Event Types and identified in General Settings - Email/Telephony 128.
