~~Fix Me!~~

IQXWeb Settings

Settings

The **Settings** page can be used to create, edit and delete IQXHub profiles.

User Classes

The **User Classes** page can be use to create, edit and delete IQXWeb user classes. The IQXWeb user classes are normally configured by IQX when IQXWeb is installed and should not normally need to be changed.

Rights

There are three pages in IQXWeb Settings regarding IQXWeb rights, the **Rights**, **Class Rights** and **Default Class Rights** pages.

Rights

The **Rights** page can be used to create, edit and delete IQXWeb user rights. The most IQXWeb user rights are automatically added when IQXWeb is updated so that they are correct for the version of IQXWeb which is installed. Custom (non standard) IQXWeb user rights will need to be added manually, .

Class Rights

Default Class Rights
