

Person Record

AWR view on the person record shows each AWR Role - combination of Legal Entity and Job Title (with Grade & Specialisation if used). An AWR Role is created when a placement is made of a first shift entered for a vacancy.

- As Timesheets or Other Agency Work are added the total number of weeks shows.
- When the Gap reaches 6 then Qualification is broken and Weeks returns to 0.
- Where Roles are linked there will be a tick to show the Role is multiple.

Link Role Button

If the roles performed are essentially the same and for the same legal entity the placements will need to be linked. If a timesheet is made against any of the linked roles it will count towards the qualification period for all. This can be done using the Link Role button here. Ensure the correct AWR Role is selected.

Show Weekly Details

This will display a form to show how the qualification is progressing.

Placement Button

Opens the primary placement associated with the Role. Manual linking of placements into one role can also be done on the placement view. Some Agencies will have some auto linking set up by Position, Grade, Question or speciality. This is done by IQX customisation, contact us for further information.

AWR unavailability reasons for unavailability that relate to the Temp and all their AWR roles such as sickness, jury services, maternity, etc. will appear for each Role. Unavailability must be entered in the normal manner and a note of explanation should be added. Use the Availability view or the Temp Desk > Temps view.

Directly Employed/Swedish Derogation

There is a new field in Person Payroll 'AWR Exemption Reason'. If an Agency wishes to directly employ the Temp and pay them when no work is found, as per Swedish Derogation, or the temp is Self Employed, this new field must have a selection.

Person Payroll

Title for Payroll:

Composite Co Pay Ref:

AWR Exemption Reason: None

The choices are P.B.A (Pay Between Assignments), Self Employed or Ltd. Company. On creation of a Shift or Placement this will be picked up and block the creation of an AWR Role record as AWR will not apply. On the placement, the 'Directly Employed' field will be ticked. A Temp Desk report shows P.B.A. Temps without a Timesheet in the week to be used to check if there is a need to create internal timesheets, as required by the Swedish Derogation.
