

Managing Data for Privacy, Data Access Requests & GDPR

We have created a number of tools to assist you in dealing with GDPR requests. The tools are only available to those who have been given the relevant user role, if you are unable to see the buttons then please speak to your System Administrator.

Data Access Report

If a candidate requests a copy of the information held in the database about them, it is possible to obtain this information by clicking the Data Access Report on the GDPR button menu on the Person record. The information is displayed in pdf format.

Once the pdf is displayed it will be necessary to review the report for instances where information needs to be redacted or individual pages removed. (e.g. where information disclosure might affect another person's right to privacy.) The redaction process is the same process as redacting compliance documents.

Some files may not be suitable for inclusion in the pdf and will be attached to the email when sent to the candidate. It is strongly recommended that each file is reviewed before despatched to the candidate. Clicking email will send the report to the email address held in the candidate record. Therefore, it will be important to ensure this email address is correct.

Two emails are sent to the candidate one will be the report and the second will be the password to gain access to the report pdf.

It is also possible to save and print the report to send to the candidate by post.

A contact event can be created to record when a Data Access Report is either emailed, saved or printed. These Contact Event will be saved in Person Contact Events.

Consultant	Contact Type	Date	Time	Contact Summary	Link	Outcome
IVAN	GDPR	21/12/2017	15:08	GDPR Report Sent		
IVAN	GDPR	14/12/2017	11:47	GDPR Report Saved		
IVAN	GDPR	14/12/2017	11:44	GDPR Report Printed		

Where a Data Access Report is sent electronically and provided a GDPR Contact event has been set up the pdf password will be saved in a Contact Event.

The zip password is WE[-yQDcdDB[F]K''M6=[*(0PKfWp

Secure service for sending out Data Access Requests (and other files) - Based on IQXHub

This feature arose from a need to improve the security of GDPR Access Report emailing. However, it can be used for the secure dispatch of any files from IQX.

Using the GDPR Data Access Report as an example clicking email will cause a confirmation message to appear.

The candidate will receive an email with a link to the document download page. On clicking this the following will appear in their Browser.

In addition, it will then generate a new email containing the password. This password will both download the zip file and allow the candidate to open the password protected file.

This feature requires System Administrator setup.

For more information on this feature please contact IQX.

Data Management

Warning! This is irreversible and will be audited

After receiving and considering a request from a candidate to be forgotten or for their details to be removed the GDPR - Data Management drop down on the Person Record and in the Data Access Report view can be used to modify a candidate's record.

Options	Select
Anonymise	☒
Remove Contact Events	☒
Contact Events Before Date (blank=all)	
Remove Documents	☐
Remove Compliance Documents	☐
Remove CV	☐
Remove Photo	☐
Remove Progress/Shortlist	☐
Remove Availability/Holiday	☐
Remove Contact Details	☐
Remove IQXWeb	☒
Delete All (if no shifts or placements)	☐

The Anonymise option anonymises all personal data in the selected record. The candidate record title will be changed to the candidate's personid.

Temp	Infrastructure
Name	Anonymised Anonymised
State	Archived/DNU
Available From	
Personal	Male 48
Home Phone	
Day Phone	
Mobile	
E-mail	
Social Media	
Address	Anonymised, Anonymised, Anonymised
Source	None
Consultant	IVAN
Registered	No. 10068 Date 29/09/2008
Last Updated	18/05/2012 10:00:55

There may be areas where personal details may be stored in text on the person record and placement records. It is recommended that these locations like Person - Notes are manually reviewed at the same time to ensure the maximum possible anonymising takes place.

The Candidate's audit trail will also be deleted.

Adding deletion dates to individual documents

A new field is available when adding documents which allows the setting of a deletion date for that document. For example when a certification has expired.

Running the PurgeDocuments.xml from your XML folder will delete documents with a deletion date prior to the current date.

Isha Gill - Add file

Document Type

File

Document Name

Publish To Web ☐

Deletion Date

Expand	Add	Redact	Archive/Unarchive	Questions	Delete	Show Archived	Show Details	Help
	Description	Type	File Type		Deletion Date	Publish to Web	In CV Send	Restrict
	Isha Gill Health	Health	PDF	O	30/06/2018	☐	☐	☐
I	Isha Gill Qualification	Qualification	PDF	O	07/10/2018	☐	☐	☐

Deletion dates can be specified for documents already added to the database as well as new documents.

Obscuring Bank Details

In preparation for the implementation of the GDPR regulations we have been working toward limiting casual access to personal data.

Complete bank account numbers can be obscured. Users will be able to see the last four digits of the account number for confirmation purposes.

Review P45 process - add remove bank details (GDPR)

As part of the GDPR tools provided by IQX a candidate's bank details can be removed from Person - Payroll when P45/Leave is clicked. Selecting 'Clear Banks Details' will remove a candidate's bank details.

Warning: Only clear the bank details once the last timesheet has been completed and transferred to Payroll.
