

Shifts Tab

refers to:

temp desk form → Shifts tab

vacancy form → shifts tab

This tab enables a User to be able to manage any shift individually. Clicking the **Shifts** tab opens the **shifts** subform

The line that is selected has all the details available in the bottom section, where the white lines can be edited as required. Also Filled or Cancelled individually.

There are filters at the top to limit the shifts seen by Unfilled, Provisional, etc, also by Date Range and a more complex Filter is available to filter by Company, etc.

The order can be changed by clicking on the column heading for Temp Client, Vacancy, Date, Description, Their Ref (shift) The Process button can take the selection to the selector for Temps, Vacancies, Client or Contacts for Mail Merging and Texting in bulk.

From the **Vacancy form** → **shifts tab** Shifts viewed using the **Process** button will bring up this form with just the shifts from the Vacancy, for detailed viewing or working.

Add shifts from a Temps view.

(2.15.11+)

There is an 'Add Shifts' button in Temp Desk – Temp to provide an alternative route to adding shifts in addition to the 'Add Shifts' button in Temp Desk – Vacancies.

The screenshot shows the 'Temp Desk' interface. At the top, there's a header with 'Desk: Demo - Construction ABC', 'View: Weekly Shift', 'Year: 2015', 'Week: 32', and 'Ends: 08/11/2015 (Current)'. Below this are buttons for 'Process', 'Update', 'Close', and 'Help'. A 'Vacancies' section is visible with a search bar and a list of vacancies. The 'Add Shifts' button is highlighted with a red box. Below the vacancies, there's a table with columns for 'Temp', 'Known As', and dates from Monday to Sunday. The 'Add Shifts' button is located between the 'Vacancies' section and the table.

From Temp Desks select a candidate – Add Shift – Fill in Shift Details – Save and Fill and the form below will appear with the last person ticked visible. Continue to fill the shift.

You can drag a person HERE to match

Help < Back Next > Cancel

In addition, it is possible to drag a candidate to the 'Fill Shifts' window, from the Person Selector. Ensure the Person has their name checked and continue to fill the Shift.

Allow ascending/descending sorting on shifts

Ascending and descending sorting has been provided in Temp Desk - Vacancy - Shifts for 'Our Ref' and 'When Entered' columns.

Added ability to manage Shortlisted Shifts

From 2.23.1+ Temp Desk Shifts View. A new Short List State option has been added and it is now possible to save your selection of shift types as a default so that it automatically opens on this view each time making it quicker and easier to find shifts with short lists.

Particularly useful for agencies that allow temps to add themselves to shift short lists.

Shift/Vacancy Confirmations and Auditing

Confirmations details are recorded for Shifts and Vacancies.

In Vacancies – Temporary Vacancy - Diary – Right click an Appointment – Edit - View the information at the bottom of window.
