Currencies

refers to:
Maintenance menu → Accounts setup → currency tab

Different Currency rates can be defined here as a multiplier of the “home unit” - for example, the US Dollar may be specified as 1.25 times the home unit, meaning 1.00 GBP = 1.25 USD.

Each Currency definition requires a unique identification code.

Users must ensure that exchange rates are updated regularly - possibly daily.

To create a new entry, use the **Add** button.
