Send a location map using a contact event

refers to:
contact event form → location map tab
vacancy pages → location map

When you are creating a contact event, for example notifying an applicant of an interview, you may wish to include a hyperlink to the place of the interview.

With both the contact event and vacancy pages open, select the **Location Map** tab on the vacancy form, and drag-and-drop an appropriate hyperlink to the text area of the contact event.
