

Boiler Plate Text (Standard Text / AutoText)

Boiler Plate Text allows setting up of blocks of standard text which may be easily dropped into the current cursor position of the various free text notes fields.

This is helpful for vacancy job description outlines, interview question outlines, contact events etc.

Set up in Maintenance> Agency Setup> Boiler Plate Text.

Select whether you want the text to be accessible from:

Company

Vacancy

Contact Event

Company

Applicant

Text Message

Double click on the boiler plate text field to open the box to enter the text.

The screenshot shows the 'Maintenance - Agency Setup' window. The left sidebar lists various setup categories, with 'Boiler Plate Text' selected. The main table displays a list of boiler plate text entries. The entry 'Interview Details' is selected, and a detailed view window is open showing its contents.
