

Client Files Installed with IQX

This list of files commonly found in IQX client installations may be helpful. Not all these files will be found in every installation - this will depend on your configuration. In particular many of the dlls are only required for specific image manipulation processes - usually connected with the processing of timesheet images.

Files normally placed in the client IQX share		
iqx.exe	main IQX program file	
iqx.ini	IQX configuration settings	
bankscan.dll	bank modulus checking library	
british.adm	spell check dictionary	
libeay32.dll	Open SSL library for https etc	
ssleay32.dll	Open SSL library for https etc	
tiff_to_pdf.dll	image conversion library	
wPDFViewPlus02.dll	PDF viewing and manipulation library	
wPDFViewPlus03.dll	PDF viewing and manipulation library	
wp_type1tff.dll	supprt library for wPDFViewPlus	
pdftk.exe	PDF manipulation utility	
pears.key	security support file	
DTKBarReader	bar code reading library - EXTRA COST OPTION	
zlib1.dll	file compression library	

Files with the extension **rtm** are IQX Report Templates. Files with extension **xml** in the IQX folder structure are likely to be IQX Job Runner scripts - if in doubt check the contents - IQX jobs will have a top level tag of <job>. Bitmap files (extension bmp) in the program folder will be background images for IQX - see Add a background image to IQX

Files in IQX Job Runner and IQXNet installations		
RunJob.exe	Job Runner program file	
RunJobService.exe	Job Runner - windows service version	
IQXNet.exe	IQXNet program file	
IQXNetService.exe	IQXNet - windows service version	

Obsolete files relating to previous help systems - can be removed		
iqx.hlp	Help file	
iqx.chm	Help file	
pears.cnt	Help file	
pears.gid	Help file	
pears.hlp	Help file	
iqx.gid	Help file
