

# Client Files Installed with IQX

This list of files commonly found in IQX client installations may be helpful. Not all these files will be found in every installation - this will depend on your configuration. In particular many of the dlls are only required for specific image manipulation processes - usually connected with the processing of timesheet images.

Files normally placed in the client IQX share	
iqx.exe	main IQX program file
<a href="#">iqx.ini</a>	IQX configuration settings
bankscan.dll	bank modulus checking library
british.adm	spell check dictionary
libeay32.dll	Open SSL library for https etc
ssleay32.dll	Open SSL library for https etc
tiff_to_pdf.dll	image conversion library
wPDFViewPlus02.dll	PDF viewing and manipulation library
wPDFViewPlus03.dll	PDF viewing and manipulation library
wp_type1tff.dll	support library for wPDFViewPlus
wpdecodeJP.dll	support library for JBIG2 image encoding in pdfs
pdftk.exe	PDF manipulation utility
pears.key	security support file
DTKBarReader.dll	bar code reading library - included from v2.16.12
zlib1.dll	file compression library

Files with the extension **rtm** are IQX Report Templates. Files with extension **xml** in the IQX folder structure are likely to be IQX JobRunner scripts - if in doubt check the contents - IQX jobs will have a top level tag of <job>. Bitmap files (extension bmp) in the program folder will be background images for IQX - see [Add a background image to IQX](#)

Files in IQXHub, IQX JobRunner and IQXNet installations	
IQXHub.exe	IQXHub GUI program file
IQXHubService.exe	IQXHub - windows service version
RunJob.exe	JobRunner program file - defunct
RunJobService.exe	JobRunner - windows service version - defunct
IQXNet.exe	IQXNet program file - defunct
IQXNetService.exe	IQXNet - windows service version - defunct

also dll, key files etc as for the IQX client

Obsolete files relating to previous help systems - can be removed	
iqx.hlp	Help file
iqx.chm	Help file
pears.cnt	Help file
pears.gid	Help file

**Obsolete files relating to previous help systems - can be removed**

pears.hlp	Help file
iqx.gid	Help file
