- [System Administrator](#)
- [Fixes and Enhancements](#)

Users

Add shifts from a Temps view.

An 'Add Shifts' button has been added to Temp Desk – Temp to provide an alternative route to adding shifts in addition to the 'Add Shifts' button in Temp Desk – Vacancies.

The screenshot shows the 'Temp Desk' interface. At the top, there's a header with 'Desk: Demo - Construction ABC', 'View: Weekly Shift', 'Year: 2015', 'Week: 32', and 'Ends 08/11/2015'. Below this, there's a 'Vacancies' section with a search bar and a 'Current Pool' dropdown set to '2'. The 'Add Shifts' button is highlighted with a red box. Below the 'Vacancies' section, there's a 'Temps' section with a table of candidates. The table has columns for 'Temp', 'Known As', and dates from Monday to Sunday. The 'Add Shifts' button is also highlighted with a red box.

From Temp Desks select a candidate – Add Shift – Fill in Shift Details – Save and Fill and the form below will appear with the last person ticked visible. Continue to fill the shift.

The screenshot shows the 'Operator at 3I Group PLC' form. It has three main sections: 'Match from', 'Match', and 'Previously worked only'. The 'Match from' section has radio buttons for 'Vacancy Short List', 'Current in Temp Desk Pool', 'Specified Individual', 'Current in Department', 'Entire Temp Desk Pool', 'Secondary Agency Temps', and 'Checkley, Brenda' (which is selected and highlighted with a red box). The 'Match' section has a 'Match' dropdown set to '1', a 'Starting' date of '02/11/2015', and checkboxes for 'Filter Temps' and 'Match Exact Grade Only'. The 'Previously worked only' section has radio buttons for 'No', 'Company', and 'Vacancy', and date fields for 'Date from' and 'Date to'. At the bottom, there's a red box with the text 'You can drag a person HERE to match'. The form has a green footer with 'Help', '< Back', 'Next >', and 'Cancel' buttons.

In addition, it is now possible to drag a candidate to the 'Fill Shifts' window, from the Person Selector. Ensure the Person has their name checked and continue to fill the Shift.

Person, Payroll. "Awaiting NI" added.

Where a candidate has not provided their National Insurance number this can be recorded by using the New 'Awaiting NI' tick box. This function does not transfer to payroll. Contact IQX if needed.

This can be accessed via the Person Selector - Payroll - Scroll down the lower part of the table.

The screenshot shows the IQX software interface for a person record. The window title is 'Brenda Checkley'. The interface has a green header bar with navigation icons and buttons: Reports, Register, Delete, Search. Below the header is a 'Help' link and a 'Registration Report' link. The main area is divided into several sections. On the left is a sidebar with a tree view containing: Temp, Contact Events, Compliance Status, Get in Touch, Diary, Availability, Requirements, CV, Questionnaire, Perm, Accounts, and Compliance. The 'Temp' section is expanded, showing a list of fields: Division (BR Derby), Known As (Brenda), Name (Brenda Checkley), Available From, Personal (Female 36), Home Phone (01385 340033), Day Phone, Mobile (07453909998), E-mail (Brenda@iqx.co.uk), Payroll Email A..., and Social Media. The 'Personal' section is also expanded, showing: Headline, Alert, Reg. Departments (Construction* (Temp)), Dept. Questionnaire (Construction*), Job Title (Civil Draughtsman, Coded Welder), Key Skills, CSCS (No), CSCS Expiry, Test number for dec..., and ***Person Q'aire*** (Do not mailmerge U...). The 'Questionnaire' section is expanded, showing: Holiday Pay (D45/Leave), Awaiting NI (checked), NI/Tax Details (NI Number: , Tax Code: , Week 1 Indicator: No), Title for Payroll (Ms), Composite Co Pay Ref, and No Holiday Pay. A red box highlights the 'Awaiting NI' tick box and the 'NI/Tax Details' section.

Employment History - Unlinked Companies

Employment History with companies who are not recorded on IQX can now be added to a Person record.

In Person record - History - Add Employment/Delete Employment - No and complete the details and save.

Company Name: McVities
Job Title: Product design
Please supply Dates if known
From: 28/01/2010
To: 12/08/2015
Ok Cancel

Company	Job Title	Temp	External	From	To	Salary	Concurrent
Brenda Checkley							

If, later, it becomes worthwhile adding the company to Company records this can be completed by making the employment internal via the 'Make Internal' button.

Allow ascending/descending sorting on shifts

Ascending and descending sorting has been provided in Temp Desk - Vacancy - Shifts for 'Our Ref' and 'When Entered' columns.

Temp	Company	Vacancy	Vac. Site	Date	From	To	Break	Description	Our Ref.	Their Ref.	When Entered
Brenda Checkley	Danka Business Sys...	Biscuit Cutter	RCPE	Mon 13/10	08:00	16:00	60	8 Hours	35		21/10/2008 12:40

Web Referencing

Users can now send reference requests and receive references from within IQX via the web. Referees will be able to log onto a temporary website to complete the reference which will automatically update the IQX database. This functionality requires System Administrator set up in addition to IQX set-up of the database/wpk, IQXHub and some iqxWEB functionality. [User Guide](#)

Temp Desk

Tempdesk, Expiry Dates. New filters added.

To improve the ease of searching within Temp Desk - Expiry Dates, new filters have been added - 'Working this week' and 'Person state'.

Temp Desk - Expiry Dates - Working this week filter (click button) - Person State filter click buttons.

Person , Tempdesks. Adding/removing can be audited

The adding or removing of Temp Desks from a person record can be audited. Additional Temp Desks are added via Person Record - Register - Complete the form including allocating a temp desk.

The audit trail is recorded in the side bar view of the Person record.

IQXNet

Authorised e-timesheet, Entered now shows the client contact who completed the timesheet

In IQXNet the timesheet has been enhanced by the inclusion of the name of the Consultant who completed the timesheet on the portal.

Period	W 201532
Dates	From 02/11/2015 to 08/11/2015
Payroll Company	1
Analysis Code	E3
Entered	02/11/2015 14:29 By Suzanne Smyth
Processing Details	

Accounts

Maintenance, Invoice Management Groups. "Tradeshift" added as a Process Method.

Timesheets will go through Batch invoice creation and invoices will not appear in Send Invoices or Send OB10 Invoices. Contact IQX to implement this feature.

System Administrator

View only default to see IQXNet details

There is now a 'View only' option for IQXNet. Consultants will be able to open the record of a candidate with the IQXNet icon on their Person record but will not be able to make any changes to the record.

This function requires IQXNet and is set up in Maintenance - Users - IQXNet.

Role Group IQXNET <input type="text"/> Search				
Group	Role	Search Criteria Group	Assigned	Ex
IQXNET	Can administer IQXNet users		<input type="checkbox"/>	
IQXNET	Can only view IQXNet users		<input checked="" type="checkbox"/>	

On opening the IQXNet record the Consultant will see -

For Comparison, a Consultant with 'Can administer IQXNet Users

Role Group IQXNET <input type="text"/> Search				
Group	Role	Search Criteria Group	Assigned	Ex
IQXNET	Can administer IQXNet users		<input checked="" type="checkbox"/>	
IQXNET	Can only view IQXNet users		<input type="checkbox"/>	

will see -

Compliance Documents - Adjustment of document input configuration to change size/readability.

Compliance documents can now be adjusted to improve the size and readability of the documents.

In Maintenance - General Settings - Settings 1870 and 1880. Both input values specify the percentage of resolution and compression for compliance documents.

1870 Settings	Resolution for Compliance Document Input	72	Allows fine tuning of readability/size
1880 Settings	Compression for Compliance Document Input	75	Allows fine tuning of readability/size

New User Role - Restrict Users from seeing Temp Desk other than own

User can now be restricted from seeing Temp Desks other than their own.

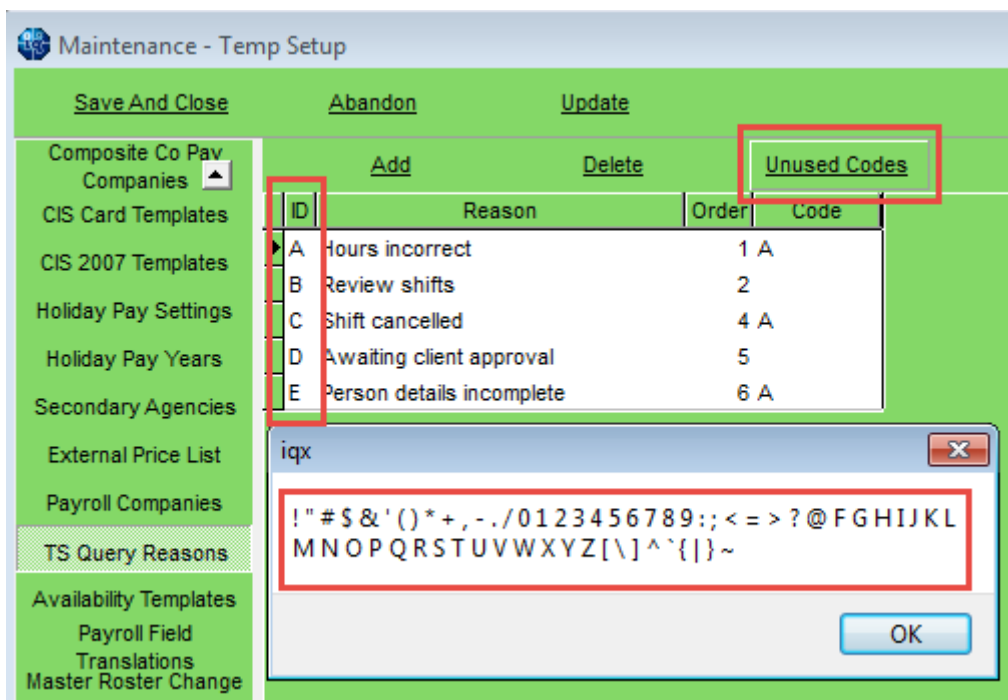

Group	Setting	Activate	Expires	Notes
USER	Hide Temp Desk other than Own	<input checked="" type="checkbox"/>		
USER	Hide Tempdesk Cascade	<input type="checkbox"/>		

The setting can be accessed via Maintenance - User - Layout Settings - Group USER - Click 'Hide temp Desk other than own'.

Maintenance, Temps, TS Query Reasons. Unused Codes Button added.

With a long list of timesheet query reasons it can be difficult to determine which ID characters are available. The Unused Codes button will display available ID Codes.

Go to Maintenance - Temp Setup - TSQuery Reasons - Unused Codes

New field 'Code' used to filter Timesheet Query Reasons

A new field has been added allowing control over the choice of reasons available to a user when querying a provisional timesheet. Querying a provisional timesheet will allow the timesheet to be referred back for corrections or further approval.

To access this feature: Maintenance - Temp Setup - TS Query Reasons - Insert selected query codes. (alphanumeric works best).

New field ExpiryBehaviour in Tag table

This field is available for use by jobs as required. If you have a job which monitors DBS expiry this field allows the specification of what activities will happen as the expiry of the DBS approval approaches i.e. Warn Consultant, Email the Person, Block the matching of shifts.

Connection name added to Sybase for ease of debugging

The connection name column in Sybase has been developed to include more detail to help with debugging.

Updated .dll files and themes

As a result of more PDF development another .dll is needed for JBig2 encoded PDFs. Updated .dll files can be downloaded from the FTP - file name IQX_21511_extradll.zip.

Kamri themes have been updated to standardise combo box drop down arrows. Contact IQX for advice on updating the themes.

Web Referencing

Users can now send reference requests and receive references from within IQX via the web. Referees will be able to log onto a temporary website to complete the reference which will automatically update the IQX database. This functionality requires System Administrator set up in addition to IQX set-up of the database/wpk, IQXHub and some iqxWEB functionality. [Setup Guide](#)
