# **Creating contact events from Favourites**

The F2 key can be used to create contact events for records in folders in Favourites, as well as using the existing button.

# Improvement to +/- click boxes

The +/- expansion/contraction buttons have been improved to ensure only one click is required. In addition this has also improved the same function in the search criteria boxes.

# Shift Confirmation - BPT when not using branding.

Following on from Release 2.16.4, Shift Confirmation fields have been created to allow the User to more precisely describe the information they would like to include in their Shift Confirmation emails and SMS.

System Administrator support will be required to set up automated BPT templates.

To use this feature in TempDesk - Vacancy, TempDesk - Temps, Vacancy - Diary and Vacancy - Shifts select **Confirm Shifts**.

# Timesheet Entry. Defunct paybands and rate schemes cannot be added.

Defunct rate schemes and defunct paybands cannot be applied to new timesheets.

Existing timesheets which have had these now defunct paybands and rates applied can be completed using these rates. However, if a new rate/payband is applied to the timesheet, and the provisional timesheet saved, it will not be possible to reapply to defunct rate/payband.

# Document Templates. Users can build own "favourites" list. Also search added.

Users can build own Document Templates "favourites" list and search this list.

This feature is accessed from a Contact event window. For example - Person Record - Contact Event icon.

When using document templates;

# **Compliance Detail View added.**

A Compliance Detail View has been added to a Person Record for Users with Compliance rights but without Perm or Temp Consultant rights. It provides an at a glance view of Compliance issues. No data can be amended from this view.

To view this feature go to Person - Open a Person record - Side bar tab Compliance - Compliance Detail View.

# **Merging Person Records with IQXNet logins**

Merging records where one or more record has an IQXNet login associated with it has been clarified.

The process of merging records is the same. Open up the Target record and drag the source record to the upper left window of the target record.

If the Target person record has an IQXNet login and the Source record has **either** an IQXNet login or no login, the merged record will retain the Target record IQXNet login.

If the Target record does **not** have an IQXNet login and the Source record does, the merged record will retain the Source record IQXNet login.
