# Release 2.2.1.70 to 2.2.1.84

**Note**: If you have custom forms defined in IQX, not all new features may be available to you.
* before a version number indicates that the version is available for testing, not yet fully released.
x before a version number indicates that the version is not yet available

| Version | Feature / Change |
|---|---|
| 2.2.1.84 | Security warning message when mail merging |
| 2.2.1.84 | Appointment Consultant combo no longer shows defunct consultants |
| 2.2.1.84 | Temp Desk Working Shifts in Week no longer shows temps with only cancelled shifts |
| 2.2.1.84 | Process button on Shift Viewer |
| | |
| 2.2.1.83 | Fixed button redraw glitch when dragging forms in Alternative User Interface |
| 2.2.1.83 | Fixed issue with HTML Help on Windows Vista |
| 2.2.1.82 | Partial Crediting of Perm Placements.<br>New button on the Invoicing page of the placement form, appears only once Invoiced -ilt prompts for a percentage of the ORIGINAL FEE to be credited.<br>Successive Partial credits are allowed. i.e. If you credit 20% and then 30% the result will be 50% of the fee has been credited. It checks to See that cumulative partial credits will not exceed the original fee.<br>Cancel/Credit can still be used on an invoice which has partial credits. This will credit the remaining uncredited total and do a full cleanup (resulting in a lot of balancing placementanalysis lines resulting in correct balances in reports). |
| 2.2.1.82 | Various improvements to SQL Tool, including record export, executing only highlighted commands and improvements to the database browser |
| 2.2.1.82 | When Ordered added to TempDesk shift view as sortable column |
| 2.2.1.81 | Fixed SQLA v10 compatibility issue |
| 2.2.1.80 | Improvements to Provisional Timesheet creation mechanism |
| | |
| 2.2.1.77 | Divisions can now be allocated a Colour in Maintenance \| Agency Setup \| Division, this is then used to highlight records belonging to that Division. This can be useful in situations where a number of Divisions are visible to users but it is important to distinguish between them |
| 2.2.1.77 | Document views now show Document Type and original file type. Optionally document size, compression flag and details of creation, update and last access date & user can be displayed |
| 2.2.1.77 | New facility to organise attached documents. Document Types can be created globaly or for People, Companies etc. These are maintained in Agency Setup. Individual attachments can then be classified. |
| 2.2.1.76 | Quick pick lists of Town & Country added to Company and Vacancy Site views. Default Town & Country support added to Company |
| 2.2.1.76 | New Terminology setting for Expense Benefit |
| 2.2.1.76 | Location Map & Driving Directions added to Placement form |
| 2.2.1.76 | New JobRunner variables {ProgDir} & {UniqueKey} added |

| Version | Feature / Change |
|---|---|
| 2.2.1.76 | New JobRunner variables {ProgDir} & {UniqueKey} added |
| 2.2.1.74 | New separately licenced feature - Expense Benefit |
| 2.2.1.73 | Improved Sybase SQLA 10 support |
