2024/04/28 22:34 5/8 release_2.2.9

| Version | Feature / Change | |
|----------|---|--|
| 2.2.9.13 | SQL Trace - All document views will now show oledocumentid. | |
| 2.2.9.13 | Person, Shifts - Fix for date of shifts to show working from diary date not displayed date. | |
| | Jobrunner - ImportFile has new attribute - "fullfilter" - complete contents of the filter, not just single extension. | |
| 2.2.9.13 | Jobrunner - ImportFile has new field - "\$basefilename" - to access the filename without path and extension. | |
| 2.2.9.12 | Person, AWR - Link Role button will now check that the original role has work. | |
| 2.2.9.12 | Shift Cancel - Mark as on holiday or as unavailable. The on holiday requires a setting in general settings→temp (no 780) : Shift Cancel Reason with Holiday, which should mirror the cancel reason code | |
| 2.2.9.12 | Process Companies button on Person History View | |
| 2.2.9.12 | Vacancy button on Person Placement View | |
| 2.2.9.12 | Vacancy - Copy short list from an existing list | |
| 2.2.9.11 | Blank Timesheet Dispatching - Extra fields to record date and method, and XML File to send out timesheets. Requires fields to be set under general settings→temp (760-767) | |
| 2.2.9.11 | Passwords - Minimum length, Mixed case, Expiry date and non re-use are all switchable fields | |
| 2.2.9.11 | Phone Dialling - Support for web service based phone dialling added. General Settings, E-Mail/Telephony, 290 | |
| 2.2.9.11 | Person - new view 'phone type'. Lists all phone types. Can add entries for Facebook, Linkedin, Twitter. Default remains the same, preceed with asterisk | |
| 2.2.9.11 | Desktop, Inbox. An expanded email message will have a list of attachments with a preview of graphic types. Double click will open, right click to save (even if no preview). | |
| 2.2.9.11 | Vacancy Team - ability to belong to a 'Group' not just a single consultant. a) new switch ALLOW_VACANCYTEAM (1450) in general settings (defaults to off) AND User must have the layout setting to Show Vacancy Teams. b) staff selection on progress/placement selector, have a 'Team' entry at the bottom. c) new view on vacancy - perms (vacancy team) to enter Team members. d) desktop: current vacancies, unauthorised placement and progress due for action. All have 'team' at the bottom of the staff selection boxes. e) Add Team to Vacancy Selector - Search View. Can also search by branch/division | |
| 2.2.9.11 | Nominal Segments: a) Link segment to user. b) Add Nominal Segment to user form (under Analysis Code) - can only amend on Maint.NominalSegments. c) Change font to red, if Segment linked to user and staff is defunct. d) Add/Expand buttons bring up new form for Segment entry | |
| 2.2.9.11 | Maint.TempDesk Change view to a summary, just showing Dept/Division/Branch/Year/Week,and Add an expand button to bring up a new form, with detail split between 2 inspectors. | |
| 2.2.9.11 | Desktop, Current Vacancies, Sorting by End Date and Order No added. | |
| 2.2.9.10 | Maintenance, Rate Schemes Extra warning when deleting dynamic rate scheme if in use. | |
| 2.2.9.10 | Company Alert now shown when adding vacancy/shift to temp desk. | |
| 2.2.9.10 | New feature to display diary list, instead of diary popups. Need to enable 'Show Desktop Diary List' (user maintenance-layout settings), and set 'Display Diary List when Popup Count Exceeds value' (1340 - general settings-switchable fields) to >0, a value of 10 is a good number to start with | |
| 2.2.9.10 | Person and Vacancy Shift Matcher will start with current date less 14 days. | |
| 2.2.9.9 | fix for character changing when nailmerging documents | |
| | | |

2024/04/28 22:34 6/8 release_2.2.9

| Version | Feature / Change |
|---------|---|
| 2.2.9.9 | fix for New Zealand items visible on Progress |
| 2.2.9.9 | fix for Report, Save to File Excel issue |
| 2.2.9.9 | option to filter by highlighted and except highlighted without using a stored selection for mailmerge |
| 2.2.9.9 | Position and Size remembering. General Settings, Settings 370 "Form Position Remembering" will turn this on. A "Restore Default Positions" option is added to the Window Menu. Each form will have an option 'Save Position" added to the System menu (top left icon). If its position is already remembered a "Clear saved Position" option is added. Changes to monitor(s), resolution etc will invalidate the saved positions but they will be retained. IQX requires restarting after first save. |
| 2.2.9.9 | Contact tree : Highlighting and restrict to allowed divisions. |
| 2.2.9.9 | Emailing Documents :Fix for error when attaching documents to emails |
| 2.2.9.8 | Timesheet Entry. Fix for error when saving edited Client Note. |
| 2.2.9.8 | Optimisation. Holiday pay form now loads much faster. Requires updated holiday pay script. |
| 2.2.9.7 | Fix for error when creating contact event from mail merge. |
| 2.2.9.7 | Timesheet Imagelink : new rotation/email buttons |
| 2.2.9.7 | Contact tree (Company) |
| 2.2.9.7 | CV Parsing. Name and address will now be converted to proper case. |
| 2.2.9.7 | CV Parsing. Mobile phone numbers will not be put into Home Phone. |
| 2.2.9.6 | Vacancy, AWR. AWR Override Rate Scheme now hidden unless General Settings, Temps, 750, "Show Vacancy AWR Override Rate Scheme" is turned on. |
| 2.2.9.6 | Adding shifts. Client Note can be added on grid and bulk adding. |
| 2.2.9.6 | Timesheet Entry. Pay and charge totals will now show up to 99999.99. |
| 2.2.9.6 | Timesheet Entry. Client note can be entered when adding shifts. |
| 2.2.9.6 | Person based TS Image linking. Fix for changing TS query linked to TS Image not updating file location. |
| 2.2.9.6 | Person, Placements. Added to Clearance menu. |
| 2.2.9.6 | Person, Payroll. Can now be viewed by users with Clearance but not Accounts. |
| 2.2.9.6 | Questions. Long description added for website use. |
| 2.2.9.6 | Accounts, Transaction List. Fix for Journal type not being selected correctly. |
| 2.2.9.6 | Timesheet Entry. Client Note now shown on Shifts page. Columns on Shifts page resized. Change of Grade on Shifts page will immediately save all shift changes and recalculate AWR. |
| 2.2.9.6 | Vacancies, Initial State. General Settings, Settings 1430 "Initial Perm Vacancy State" and 1440 "Initial Temp Vacancy State" will be used for new vacancies. |
| 2.2.9.5 | Company, Temp Details. Fix for Default Rate Schemes not available for new companies. |
| 2.2.9.5 | Accounts, Invoicing. Fix for timesheet images not attaching. |
| 2.2.9.5 | Background Image. Can now have a background image for each database."DatabaseName".bmp |
| 2.2.9.5 | Accounts, Invoice Temp Timesheets. Contract Ref now shown. |
| 2.2.9.4 | Maintenance, Users, Roles. Can now be filtered by group. |
| 2.2.9.4 | Company, Contact. New user role to allow moving contacts to another company without full maintenance rights. |
| 2.2.9.4 | Company, Notes. "Notes" now in terminology. |
