

Completing Timesheets - hints for problems

Shifts not for correct time

Date	From	To	Break (Mins)	Hours	Pay	Bill	Grade	AWR?	Their Ref.	Note	Shift Type

Wed 21/03/2012	08:00	10:30	15	2.25	✓	✓	12				2

The start and end time and the break minutes can be edited to match the timesheets - and keep an accurate record in the database.

It is possible in the Vacancy Diary view to adjust shifts with the mouse - which is a good way to change a morning shift to an evening shift for example.

Put the mouse on the TOP coloured line of the shift to move the WHOLE shift to another time, hold down and drage to the correct start time. The length of the shift will remain the same.

Put the mouse on the BOTTOM coloured line of the shift to extend or shorten the time. (Use the number buttons on the top right to show the day in 60, 30, 20 etc minute slices.)

You can also can right click on a shift and select **Edit Details** to alter by entering an exact time.

Missing Shifts

The quickest way to add a missing shift fully is to start on the Temp Desk Timesheets view.

Search	Expand	Add	Vacancy	Candidate	Create	Copy
Number	Payroll No.	Temp	Account Code	Client		
2752 141152	Ackroyd, Toni	1061	Access Homehealth ...			
2463 125090	Burt, Wilma	101142	Voulk Peter			

Select the line of the provisional timesheet then click the **vacancy** button. The vacancy opens on the Shifts view. Use **Ctrl + Add Shifts** to open Grid.

No Units in the Pay Lines

There is a mismatch between the Rates Scheme and the Candidate match it is looking for - usually the Candidate's Grade. Perhaps the Candidate has not been coded to have the grade - inform Compliance to set code the candidate's skills and then the match will happen. Or perhaps the Scheme does not have lines that cover the grade - inform the Section Manager to correct the scheme and then the match will happen.

How to save Override Pay Rates for future Timesheets for this Candidate/Vacancy combination

Schemes are set with the STANDARD rate of pay - what the Agency would prefer the candidate to be paid. However some candidates have custom rates of pay so the scheme needs to be overridden.

Rather than having to overwrite manually every time (which is EVERY time if rate = 0.00) the Booking can have the override rates set in it to use in the future.

From the timesheet view, use the **vacancy** button (opens in the shifts view). Click on a line containing the correct candidate's name. You may have to change the date back on the shift view to find the correct candidate.

Click on the Booking/Rates view.

Go to the rates view (default)

Overwrite the pay rates (they will go red)

Save and refresh (background goes white to indicate an overwrite.)

HBR07	SD	85.00	144.65			

Now the timesheets on for this booking will always use these rates.

How to Add Pay Lines

On the timesheet, use the **Add Rate** button. This will activate a new cell at the bottom of the existing lines. Select the Pay Band and enter the units and rates.

Hours not equal

Warning message when Sleep Over shifts exist.
This is because even though the sleepover covers HOURS only 1 UNIT is charged. Also the total cells are yellow. It is a warning to check a sleepover was intended.
