

How to use IQX Diary and Appointments

The Diary tab shows the diary for whoever is selected in the Drop Down list box.

For an individual user, the display format of the main section shows on the page divided into time segments. The time segments can be changed by right clicking on the grey left time margin giving options from hour to ten minute segments. On the right is the month for quick movement to other dates and below is the week indicating any entries against the day.

The screenshot displays the IQX Desk Top interface for a user named Catherine. The interface is divided into several sections:

- Top Bar:** Shows the user name "CATHERINE" in a dropdown menu, along with icons for help and other functions.
- Left Sidebar:** A vertical list of navigation options including "Daily Work List", "Diary", "Diary List", "Inbox", "Progress due for Action", "Interviews", "Contact Events due for Callback", "Current Vacancies", "Tracked Vacancies", "Placements", "Reports", "Backup Log", "Incoming SMS", "Tracked Applicant", "Charts", and "Collections".
- Central Diary Grid:** A table with time segments on the left (from 2 AM to 5 PM) and a central area for entries. Entries include "Meeting with Management" at 10 AM and "Catch up with Candidate XXXX" at 12 PM.
- Right Panel:** Contains a monthly calendar for June 2022, a "Go to Today: June 2, 2022" button, and a weekly view showing appointments for the week of June 2nd, 2022. The weekly view shows "Meeting with Management" and "Catch up with Candidate XXXX" on Thursday, June 2nd.

It is possible to look at another user's Desk Top, a whole Department's Desk Top or the whole Agency's Desk Top by using the drop down list at the top left of the screen. If a group is selected from the drop down list box the display format is changed.

iqx - <https://iqxusers.co.uk/iqxhelp/>

The form is opened up with the Date and Time entered (which can then be changed if required). Select the consultant who the appointment is to be for from the drop down box, the default is the user logged on.

Tick the Popup notification box and enter how many minutes before the appointment time you want the popup reminder to appear. If you do not require a reminder about the appointment, leave it blank.

If you are entering a Reminder leave the duration at the default of Reminder (no duration).

For an appointment, click on the radio button to select the type of time period (minutes, hours etc) and enter the duration.

If this is a recurring appointment enter the number of days it is to recur on - eg. 1 for every day or 7 for every week etc. A recurring appointment will only ever show in the diary on the next date/time it is due.

Enter a brief description of the appointment

An appointment can be linked to a company, a person, or both. Click the button to bring up the selection forms.

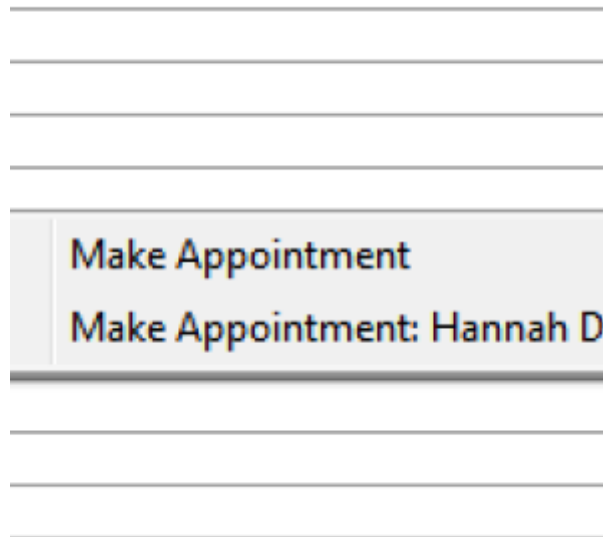

Notes can be kept about an appointment, enter these to the bottom right hand area of the appointment screen.

Use the Other Staff Add button to add others to the appointment; it will then appear in their diary with relevant details, pop up notification etc.

Short Cut: You can use the make diary appointment button (F3) from other screens. Where you click

to make an appointment from another screen, it will take you to the desk top diary. Right clicking on the date and time to make an appointment will then give you another option 'make an appointment:*name*'. Selecting this option automatically populates the links in the appointment screen with the relevant information.

To amend an existing appointment, open the appointment by right clicking on it and click on the line detailing the appointment. Make the required changes and save and close.

Reminders and Appointment Linked to Outlook

From version 2.20.4 onwards it is possible to send diary appointments, reminders and interview details to an Outlook calendar.

If set up by your Agency, when creating a diary appointment or reminder in the IQX diary you can also send this to your Outlook calendar so you always know what meetings you have, even if you are not logged in to IQX, without the need to enter the appointment twice.

The screenshot shows the IQX appointment form. The 'Consultant' field is set to 'SHELLEY'. The 'Priority level' is set to 'Beforehand'. The 'Popup Notification' checkbox is checked. The 'Send ICS File to Consultant' checkbox is highlighted with a red box. The 'Date / Time' is set to 'Wed 06/05/2020 12:05'. The 'Recur every' is set to 'days'. The 'Description' is 'Shelley Hunter'. The 'Duration' is set to 'Reminder (no duration)'. The 'Links' section has 'Unlink', 'Company', and 'Person' buttons. The 'Company' field is empty, and the 'Person' field is 'Shelley Hunter'. The 'Notes' section has an 'Insert Text' button. The 'Other Staff' section has 'Add' and 'Remove' buttons. The 'Send ICS File' checkbox is highlighted with a red box.

If the appointment is linked with a candidate or a client you can also tick to send them an email with an attachment that they can then add to their own calendar.
