Vacancies

The Temp Desk will automatically open on the Consultants default Temp desk. You can select a different Temp desk from the drop down menu in the top left of the window. From this tab there are several things you can do:

- Expand the Vacancy
- Add a new Vacancy
- Search for a Vacancy by the Company/Client name
- Add shifts to existing Vacancy
- Fill shifts for vacancy
- Confirm shifts - this will also send out a notification if you have one set up.
- Copy shifts
- Access the Timesheet for a candidate

You can also filter the Vacancies by those that have Shifts in the week, are in a Current, or have unfilled shifts in the week.

Temps

In this tab you can view all the Temps for your selected desk, and see what vacancies they are booked into. If you right click on the cell a small window will popup showing you more details about

the booking. You can access the Person record and the Vacancy record from here by clicking on the option.

The screenshot shows the 'Temp Desk' application. At the top, there's a header with 'Desk' (Industrial Drivers), 'View' (Weekly Shift), 'Year' (2022), 'Week' (14), and 'Ends 10/07/2022'. Below this is a sidebar with a tree view containing 'Vacancies', 'Temps', 'Availability', 'Placements', 'Vacancy', 'Shifts', 'Timesheets', 'Cascades', 'AWR Temps', 'AWR', 'Checking', and 'TS Query Log'. The main area has a table with columns: Temp, Licences, Distance, Monday 04/07/2022, Tuesday 05/07/2022, Wednesday 06/07/2022, Thursday 07/07/2022, and Friday 08/07/2022. A red arrow points to a dropdown menu for 'Bilal Aguilar' in the Monday column, which lists 'Monday 04/07/2022', 'Courgette Polinator, S J Berwin Llp', and 'Available at time'.

Other actions you can perform from this tab are -

- Enter Availability or Unavailability
- Enter Holidays
- Add shifts
- Book Shifts
- Confirm Shifts
- Access the Timesheet

If enabled by your Agency, you can also set the distance in miles from the postcode (vacancy)

Availability

This view shows you the Candidates Availability, Unavailability and Holidays on your chosen desk. You can view the next month or the previous month. You can also change the candidates status, filter by has availability and NOT working this week. You can also expand the Candidates record from this tab.

Placements

Temp Desk - Placements Tab

refers to:

temp desk form → placements tab

This is where you manage your group of placed candidates. All contacts can be made and recorded from this view.

In order to save entry time a Placement is not required until a first Timesheet is Completed – IQX takes care of it in the background. This means that looking at the Placement list does NOT show who is working in the week.

If a Placement is needed because a Temp is getting different rates to the Vacancy then from the Vacancy it is possible to early-create the Placement **from the shift view** by clicking the **Placement/Rates** button. **Do not** use the normal method of adding a Placement as it will not see the shift links.

2.22.2+ If set up by your system administrator unavailability entered for a contract temp the reason is now visible on the Placements, Timesheets and Availability views.
