(2.3.4+) Documents can be archived in all document views: [Archiving](#)

Document Filtering

(2.3.5+)

In Person, Placement, Company, Vacancy and Progress filtering has been added to the document view.

This feature allows searching and filtering of Document State and Type along with key word searching in the description.

The screenshot shows the iqx Documents interface. On the left is a sidebar with a 'Documents' tab highlighted. The main area contains a toolbar with buttons: Expand, Add File, Add MS-Office Document, Add Link to File, Delete, Archive, Make Current CV, Copy to Compliance, and Show Details. Below the toolbar is a filtering section with a red box highlighting the 'State' dropdown (set to 'All'), a 'Description' text input, a 'Type' dropdown (set to 'All'), and a 'Filter' button. Below this is a table header with columns: Description, Type, File type, Publish to Web, and In CV Send. The 'Publish to Web' and 'In CV Send' columns have checkboxes.

In addition, the sort order has been amended to place any archived records at the bottom of the list.

Separation of Compliance Docs and Docs

(2.3.5+) This feature separates out Compliance Documents by document type. [click here](#)

Compliance Documents - Adjustment of document input configuration to change size/readability.

(2.15.11+)

Compliance documents can now be adjusted to improve the size and readability of the documents.

In Maintenance - General Settings - Settings 1870 and 1880. Both input values specify the percentage of resolution and compression for compliance documents.

1870 Settings	Resolution for Compliance Document Input	72	Allows fine tuning of readability/size
1880 Settings	Compression for Compliance Document Input	75	Allows fine tuning of readability/size
